Express Fins Adjustable

The Express fin is now available in an open-heel version. The Express ADJ fin represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. Strap a pair on and see for yourself.

The Express fin works on the same principle as the popular Slingshot and Hotshot fins. The function of the Slingshot power bands has been converted into the Express "Armadillo". This patented, elongated membrane is made from ultra-elastic rubber. Like power bands, it accumulates elastic energy during the down stroke and returns it at the end of each kick cycle.

Colors Available: Orange, Blue and Red, Midnight Pink

Sizes Available: Small, Regular and Giant (no Giant in pink color)
