**BAVARIA**  
 K O M P R E S S O R E N

Compact, robust, durable and versatile. The new low budget compressor series from IDE-Compressors at a fantastic price.

Transportable and compact high-pressure compressor system for professional use in work and hobby. The Bavaria Sports 130/215 is the right choice for use on yachts, diving boats, small diving schools, on diving safaris and fire engines or with paintballers. Compact dimensions and low weight combined with modern technology guarantee perfect handling and functional reliability in all areas of application on land and water. Currently the most modern 3-stage high-pressure compressor block with free-flying pistons in the 2nd and 3rd stage, all-aluminum cylinder with NICASIL liners (known from racing), forged crankshaft and forged connecting rods, lubrication by means of centrifugal pins, extra-large intermediate - and aftercooler.
