RESPECT CREATES LEGENDS

LEG3ND

True legends are born from respect.

LEG3ND is for the passionate, the explorers, the ones for whom diving is more than a sport. Aqua Lung, the original pioneer of the scuba regulator, brings you the most capable, coveted and advanced line of regulators ever created: This is the new LEG3ND, a masterpiece of engineering, built for all conditions, all depths and all dives. After all, the ocean is the ultimate proving ground - a place where respect is given and earned equally, where true Legends belong.

Available at better dive dealers worldwide.

SWIM GOGGLE LENSES GUIDE

Clear	Your standard goggle lens, clear goggles let in the maximum amount of light, providing superb clarity of vision for swimming indoors – especially in low-light conditions. Ideal for: Indoor use; Everyday swimming pools; Low-light and dimly-lit areas
Blue	Designed to reduce surface glare from water to provide great visibility in bright light. Blue lenses are a good choice for both low indoor light conditions and most outdoor swimming conditions. In bright sunlight, swimmers with more sensitive eyes might want to use a darker tint
Dark	Popular all-purpose lens color that reduces the light transmission to the eye, lowering the overall brightness without excessive color distortion. Ideal for: Fitness, Leisure and Competitive Swimming. Ideal for: Light and bright indoor pools. Sunny outdoor conditions.
Polarized	Polarised lenses are specifically designed to filter intense glare caused by light reflecting off flat surfaces such as lakes and seas, making them ideal for outdoor swimming and triathlon swimming.
Mirrored	Many competitive swimmers enjoy the psychological advantage they feel mirrored lenses give them in competitions and races, but their primary use is to reflect light away from your eyes and provide a darker view. Mirrored lenses are good for bright days and can be used outside for open water swimming, but polarised lenses are more effective at filtering glare.
Titanium Mirrored	Titanium Mirror is further enhanced with a layered titanium metal coating for enhanced sun and glare protection.
