

**PSI Mini 2K Console** 

PSI Slimline Console

The PSI Mini 2K (compact) or Slimline Gauges are affordable and durable pressure gauges offering precise readings up to 400bar, with a clear and luminous easy-to-read display. An ideal instrument for dive operators.

Aqualung offers a Reliable. Robust, and Comfortable dive center school set, specially built for your rental lockers.

Wetsuits and Gear Bags can be customized with your own logo.

## **TANKS & VALVES**

# **WEIGHT BELT & BUCKLE**

**AL-SAFE Cylinder** 

Seamless 6061-T6 high strength aluminum, made to DOT-3AL or ISO 7866 certified standards **PSI K Valve** 

**PSI Valve Pro** 

Made in Italy and compatible with Thermo parts, DIN/INT both come with safety burst disk **PSI Lead Weight 1.0 KG** 

Lead weights in 1kg size for threading onto weight belt

PSI Weight Belt + Buckle

Weight belt with metal buckle 3 slots, 1.4 or 1.8 meters Blue / Black

# **RENTAL GEAR**

PSI Colby Jumpsuit 3mm PSI Colby Shorty 3mm

**PSI Adventure II Mask** 

A two-window affordable mask with tempered glass lenses and a silicone skirt for comfort.

**PSI Logbook** 

Keep your divers organized and promote your brand with our custom-printed logbooks.

**PSI Vera Mask** 

Single-lens frameless mask with an ultra-clear HD lens, Extra soft silicone skirt for comfort, and a secure fit.

**PSI Adventure II Snorkel** 

Silicone snorkel with dry top, purge valve, and flexible joint.

**Aqualung Storm Fins** 

Durable, strong and exceptionally lightweight. Only 5 sizes cover XXS through to XXL.

**Aqualung Wind Fins** 

**PSI Runner Fins** 

Durable, lightweight and affordable full foot fins, perfect for warm water diving.

Aqualung i100

The perfect dive computer for new diver. With simple one-button navigation

CREST CR1

The CREST CR1 is a durable and user-friendly dive computer designed for dive training and recreational diving.

**PSI Gear Bag** 

PSI Gear Bag - Mesh version

Affordable and Durable 90L bag with a reinforced bottom and edges, U-shaped zipper, and transparent side pocket for identification.

# NARDI COMPRESSOR

Nardi Pacific P

### **PACIFIC P SERIES by NARDI Compressor**

The Pacific P series is a range of compressors which offer fill rates from 160LPM up to 350LPM. They are highly efficient and are very robust. They come with a 3-phase electric motor.

Nardi Atlantic 100L

# ATLANTIC SERIES 100 L/min by NARDI Compressor

Reliable, durable, and versatile, the Atlantic compressor has a fill rate of 100 L/min.

### **MOLECULAR SIEVE**

13X Molecular Sieve is known for its potential to adsorb a wide range of impurities, such as carbon dioxide and hydrogen sulfide, making it ideal for environments with excessive contamination dangers.

### **ACTIVATED CARBON**

An activated carbon filter (e.g., charcoal) filter removes aerosolized oils and hydrocarbons from the air stream to improve taste and smell.

SYNTHETIC OIL

Shell Corena S4 P 100 is an Advanced Synthetic ISO VG 100 grade Reciprocating (Piston) Air Compressor Oil.

The Leg3nd Elite Black Edition is the perfect combination of high function and stunning design. An aesthetic masterpiece made with stainless-steel parts, intuitive ergonomics are at your fingertips. Diving experts will appreciate the technical precision of this high-performance regulator.

#### **Technical Features**

DE-ICE

1st stage

#### **AUTO CLOSURE DEVICE**

ACD prevents water and debris from reaching 1st stage parts or lubrication, maintaining oxygen compatibility and extending life between services.

an overmolded cap, and an integrated

### **BLACK COATING**

Durable stainless-steel parts are coated in a black Titadur® treatment for superior durability.

#### PERMANENT DRY CHAMBER

Dry chamber protects internal parts from water or contaminant damage, providing extreme durability

2<sup>nd</sup> stage

#### AIR CHANNEL DEFLECTOR

Bi-material component directs air evenly through the 2<sup>nd</sup> stage and lowers exhalation effort.

COVER OPENING CHANNELS Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

# AQUALUNG LEG3ND ELITE

The LEG3ND ELITE gives divers unprecedented capabilities by providing perfect precision and enhanced ergonomics at your fingertips. Advanced divers appreciate the independent micro adjustments to fine-tune their own individual breathing preferences.

Inhalation adjustment knob: Allows the diver to precisely adjust the opening effort sensitivity.

- At "MIN" position the assistance of the valve is minimized, resulting in lower opening effort sensitivity.
- At "MAX" position the assistance of the valve is maximized, resulting in higher opening effort sensitivity.

Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow.

Ref	Designation	RETAIL
RG148004	LEG3ND ELITE Yoke	37,990 THB
RG148005	LEG3ND ELITE DIN	37,990 THB
RQ124112	Pack LEG3ND ELITE Yoke + Octopus   RG148004 + RS119005	45,550 THB

## PAQUALUNG LEGSND MBS

The first inhalation under water is the start of a new adventure. The revolutionary combination of venturi effect and inhalation effort adjustment is natural and intuitive. Aqualung's Master Breathing System allows divers to control both in one simple rotation. All depths, all conditions, all dives - MBS will adapt.

The Master Breathing System is a new way to adjust the comfort on a second stage. The diver can perfectly master breathing comfort in one simple rotation. The MBS is a unique combined adjustment, it controls the inhalation effort and the venturi effect automatically.

With the MBS on minimum position (only one full rotation): The spring is fully compressed and the inhalation effort is about 3 mbar higher. A free flow is contained when the venturi blade restricts the injection outlet.

With the MBS on maximum position:

The injection of the airstream is unrestricted and the flow is maximized.

Ref	DESIGNATION	RETAIL

## PAQUALUNG LEG3ND

When performance is your highest priority, LEG3ND is the answer. The LEG3ND shares the same breathing characteristics with the LEG3ND ELITE and LEG3ND MBS. The familiar venturi switch now features an updated and ergonomic design. Because your sensations and emotions are amplified in the underwater world, you can focus on what matters: feeling free.

Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow

REF	DESIGNATION	RETAIL

RQ132115	PACK LEG3ND YOKE + OCTOPUS   RG148000 + RS119005	38,850 THB

## **AQUALUNG** LEG3ND OCTOPUS

The LEG3ND Octo is the perfect complement to the Legend regulator family. The high-visibility yellow color makes it easy to find when it's needed most, while the pneumatically-balanced second stage results in smooth, easy breathing. A venturi switch helps prevent free-flow at the surface. The opening effort is pre-set in a fixed position so the diver doesn't have to worry about adjusting the regulator during the dive. Excellent cold-water performance due to highly efficient heat exchanger surrounding the valve.

Ref	Designation	RETAIL

## )AQUALUNG HELIX COMPACT PRO

You don't need to be big to make a big impact. That thinking inspired the Helix Compact Pro, the smallest and most compact regulator Aqualung has ever produced. This amazing piece of technology is equally designed for both warm and cold water, meaning it's perfect for jetsetters on the go, minimalists packing light, and even local divers who simply want unequalled performance per ounce.

#### **Technical Features**

- AUTO CLOSURE DEVICE (ACD) prevents water and debris from reaching 1st stage parts or lubrication, maintaining oxygen compatibility and extending life between services.
- PERMANENT DRY CHAMBER protects internal parts from water or contaminant damage, providing extreme durability.
- PERFORMANCE HIGH PRESSURE SEAT
- DUST CAP PROTECTION
- COMFOBITE Patented Aqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2nd stage secure mouthpiece reduces jaw fatigue. Secures the 2nd stage more comfortably.
- COVER OPENING CHANNELS Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.
- INTERCHANGEABLE MOUTH PIECE

Ref	Designation	RETAIL
RG154002	Helix Compact PRO, Yoke	25,350 THB
RG154003	Helix Compact PRO, Din	25,350 THB
RQ137000	Pack HELIX Compact PRO Yoke or DIN + Octo	33,150 THB

Something so small and light, you'd hardly notice it's there that was the goal that led to the new Helix Compact. This regulator is designed for anyone looking to save space while maintaining the advantages of a full-sized regulator.

### **Technical Features**

#### First stage

- · Travel-Ready: the reduced size and weight makes the Helix Compact the ideal choice for
- Yoke or DIN: available in yoke (3,300psi/232 bar max.) or DIN (4,350psi/300 bar max.)
- HP/MP Ports and "T" Shape: 2 HP ports (7/16") and 4 MP ports (3/8"), perfectly oriented in a "T" shape for streamlined hose positioning, reduced exhalation effort, and sending bubbles out of your field of view
- · Braided Hose: A braided hose provides flexibility, comfort and excellent transportability
- Standard Aqualung Parts: since it uses standard Aqualung components, your local dive shop can more easily service it

#### Second Stage

- Pneumatically Balanced: Pneumatically balanced for smooth, easy breathing
- · Comfo-Bite: Comfo-Bite mouthpiece is soft yet sturdy and reduces jaw fatigue with its unique palate bridge
- Optimize Your Opening Effort: With the "Mini/Maxi" adjustment knob, you can increase the opening effort, ideal for avoiding freeflow at the surface, or lower the inhalation effort, reducing the work of breathing

Ref	Designation	RETAIL
RG154000	Helix Compact Yoke	22,950 THB

The Helix Compact Pro Octopus provides the same great performance as the Helix Compact Pro primary second stage. This small compact and friendly octopus is the one you want to take on your next dive trip.

#### **Technical Features**

- · The light and small Helix Compact Pro is Pneumatically-balanced resulting in smooth and
- Heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The in line venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency

## 🗘 AQUALUNG HELIX PRO

This mid-range regulator is balanced on first and second stages, it is our core range. It represents the DNA of the Aqualung regulators. It is certainly the best value for the next coming years. It benefits from the patented ACD technology. The first stage is fully protected even when the regulator is not under pressure. The Aqualung Helix Pro can be serviced every 2 years.

#### **Technical Features**

- Balanced diaphragm 1st stage provides superior, consistent performance
- "T" shape body for streamlined hose positioning
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Heat exchangers on second stage help to prevent ice forming on the mechanism
- In-line ergonomic Venturi knob allows for precise adjustments, even while wearing gloves

Ref	Designation	RETAIL

The Helix Pro octopus provides the same great performance as the Helix Pro primary second stage.

#### **Technical Features**

- The Helix octopus is pneumatically-balanced resulting in smooth and easy breathing
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- $\, \cdot \,$  The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency

Ref	Designation	RETAIL
RS144001	Helix Octopus	8,850 THB

Incorporating all the best features of its predecessors, this third generation Titan has new innovative features resulting in a more comfortable, lighter-weight and easierbreathing regulator. From the consumer that wants performance at an affordable price to the dive center that wants a rugged and easy to maintain regulator, the Titan

#### **Technical Features**

#### **First Stage:**

- · Uses a balanced-diaphragm mechanism resulting in ease-of-breathing and consistent performance while environmentally protecting the internal parts
- The first stage is T-shaped as opposed to its in-line predecessor making it more compact and providing optimal hose routings
- Features 2 HP ports and 4 MP ports
- The unique, forged body of the first stage uses less brass making it more compact and lighter weight
- · The outer skin provides impact protection as well as a cosmetic flair
- Now uses a conical filter for better filtration
- Accepts an optional ACD (auto-closure device) system
- · Improved yoke screw eliminates trapped water
- · Compatible with EAN 40 new, out of the box

#### **Second Stage:**

- · New, mid-size, high performance demand valve second stage
- Easy-to-grip venturi knob stops unwanted freeflow when the regulator is out of your mouth
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqualung dealer without additional parts
- Comes with Aqualung's Comfo-bite™ mouthpiece which reduces jaw fatigue
- A grid built into the exhaust tee creates finer exhaust bubbles for less noise and more stability
- · All new, easy purge front cover
- · A new, reinforced polycarbonate material makes this second stage stronger than its predecessor
- · The side openings on the front cover prevent freeflow when facing into currents or riding a scooter

Ref	Designation	RETAIL
RG128111	Titan, Yoke	15,680 THB

## AQUALUNG CALYPSO

The Calypso is always emulated but never equaled. It is compact, lightweight, easy to clean, pack, and maintain. It is durable and dependable in even the most demanding conditions, the perfect tool for dive centers.

#### **Technical Features**

- •The large-diameter piston gives you more stable pressure out.
- Designed with large holes in end caps for easy cleaning and better thermal exchange and improved resistance to freezing.
- Includes a 2nd filter, which can be changed without dismantling and provides increased protection from polluted air.
- In-line ergonomic Venturi knob allows for precise adjustments, even while wearing gloves.

- · Mid-size, high performance octopus to complement the Titan and Calypso regulators
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency
- · The venturi lever prevents unwanted freeflow when not in use
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqualung dealer without additional parts
- · All new, easy purge front cover

Ref	Designation	RETAIL
RS137111	Calypso / Titan Classic Octopus	6,550 THB

# Auto Closure Device System

Picture A: Din regulator disconnected > regulator closed

Picture B: Din regulator connected > open regulator

Picture C: Yoke regulator disconnected > regulator closed

Picture D: Yoke regulator connected > open regulator

When the first stage is not connected to a cylinder valve, the Auto Closure Device (ACD) keeps the inlet shut to protect the first stage internal parts from contamination and corrosive water.

- Preserves the internal lubrication.
- Keeps the inlet filter clean and dry.
- · Safer for elevated percentages of oxygen.

## High-pressure seat: 20 years of reliability

The high-pressure seat is the "heart" of a regulator. With every breath a diver takes, the high-pressure valve opens and closes again. The seat must create the perfect seal every time, providing consistent accuracy of the medium working pressure. It is crucial to select the perfect blend of materials in order to achieve reliability over the years of regulator usage.

Thanks to proprietary materials and a specific overmolding adhesion process, Aqualung's unique, patented seat design has proven to be a benchmark regardless of the often extreme conditions their regulators are used in. Each balanced high pressure seat is 300 bar compatible and was

individually inspected multiple times at Aqualung's facility in Carros, France, to guarantee the highest manufacturing quality levels

For the past 20 years, this valve has been installed into over one million regulators and it has proven to be exceptionally reliable.

## Comfo Bite mouthpiece

Patented Comfo Bite™ mouthpiece reduces jaw fatigue and secures the second stage more comfortably

### MAUI

SIMPLE, DURABLE, ECONOMICAL. It's the perfect go-anywhere regulator for warm water both new divers and recreational divers who like to keep their diving simple and fun.

#### **PSI Maui First Stage**

- Classic downstream piston
- · Chrome plated brass body
- · Low pressure ports: 4
- · High pressure ports: 1
- · Available in 3364psi/232bar INT configuration.
- Air flow administered at 2100 l/min.
- Weight: INT 230 24.9oz/706g; /DIN 300 17.1oz/485g.

#### **PSI Maui Second Stage**

- · Classic downstream valve
- · Hypoallergenic silicone mouthpiece
- · Left/right hose attachment
- · Weight: 165g / 5.8oz
- Air flow at 200 bar: 1400 l/min
- Maximum low pressure: 14 bar / 203 PSI

#### **Tecline R2/TEC1 Regulator**

Four medium-pressure ports all mounted on a rotating turret. This results in optimal hose routing while eliminating sharp bends in the hose

An optional 5th port is available for side mount or twin-cylinder set ups.

Can be converted from a right-handed hose configuration to a left-handed one. The process of changing the regulator to a left-handed configuration is both quick and simple. However this procedure must ONLY be performed by an TECLINE Authorized Service Technician.

Available in DIN configuration.

Braided flexi-hoses are now standard on all models. These hoses are lighter-weight, more flexible, and more durable.

#### First Stage:

- · Turret style first stage
- Unique over-balanced, diaphragm design as the diver descends, the over-balancing feature allows the  $medium-pressure\ gas\ in\ the\ hose\ to\ increase\ at\ a\ rate\ faster\ than\ ambient. This\ results\ in\ superior\ performance$
- 2 HP ports and 4 MP ports on a rotating turret are angled for optimum hose routing
- · An environmental dry system keeps water out of the main spring chamber thus preventing ice buildup and keeping silt and contamination out.

#### Second Stage

- · The pneumatically balanced second stage results in smooth, easy breathing.
- The large venturi lever has a soft-touch rubber grip, which makes it easier to locate and use. The lever reduces the amount of grit ingress and therefore resists any possible friction giving a smooth operation.
- · Easy-to-grip opening effort control knob keeps the diver in control.
- · A silicone exhaust valve improves the breathing performance of the regulator.
- · The Comfort mouthpiece virtually eliminates jaw fatigue.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.

Ref	Designation	RETAIL
TLRQ10005	Regulator R2 TEC1 1st & 2nd Stage	18,900 THB
TLRQ10005-1	Regulator R2 TEC1 Set I with Octo and SPG - EN250A	29,400 THB

#### Tecline R5/TEC1 Regulator

Tecline R5 TEC1 with TEC1 octopus and bag for the recreational diving with a single cylinder in cold and warm waters. Lightweight, classic and universal, reliable and easy to service. Breathing parameters in accordance with EN250A.

#### Second stage TEC1:

- · Lightweight, universal second degree.
- Classic design reliable and easy to service. Breathing parameters in accordance with EN250A confirmation of the highest quality and safe use even in the coldest waters.

### TEC1 specification:

- Pneumatically balanced.
- Venturi effect control lever.
- Breathing resistance regulation.
- Aluminum outer ring.
- Additional heat exchanger for cold water.
- Weight: 250g
- Ergonomic mouthpiece.

#### First stage R5:

- Advanced automat for demanding divers.
- Optimized port arrangement.
- Light breathing even in the most difficult conditions.
- Extraordinary breathing parameters exceeding the requirements of the latest EN250A standard for cold water vending machines.

#### R5 specification:

- Balanced membrane system.
- Dry chamber.
- Extra cold kit for cold water.
- Ports: 4x LP, 2x HP.
- Output of LP and HP ports facilitating configuration of double-cylinder sets.
- Max working pressure: 300 bar.
- Max flow rate at 20 mpa pressure: 3823 I / min.
- Pres. interstage: 9.0 bar.
- Material: sea bronze.
- Weight: 822 g.
- Works in configurations:
- A single cylinder very good.
- Twinset very good.
- Sidemount not recommended

[EN250A CE1463]

# TELIN SIDEMOUNT REGULATOR R2/TEC1

#### **TECLINE SIDEMOUNT REGULATOR SET R2/TEC1**

Discover freedom with the Tecline Sidemount Regulator Set. Unleash versatility and performance designed for the modern diver seeking ultimate flexibility and control. This innovative system revolutionizes sidemount diving, offering unmatched comfort, reliability, and precision.

#### Superior Performance, Unmatched Versatility

Crafted with precision engineering and advanced technology, the Tecline Sidemount Regulator Set delivers unparalleled performance in any diving environment. Whether you're exploring submerged caves, navigating intricate wrecks, or cruising along vibrant coral reefs, this regulator set ensures effortless breathing and optimal gas delivery, allowing you to dive with confidence and precision.

#### **Customized Comfort for Extended Dives**

Experience unparalleled comfort during long dives with the Tecline Sidemount Regulator Set. Featuring ergonomic design and adjustable components, including swivel hose connections and comfortable mouthpieces, this set ensures a personalized fit and minimizes jaw fatigue, allowing you to dive comfortably for hours on end.

#### **Innovative Design for Seamless Integration**

Engineered for seamless integration with sidemount diving configurations, the Tecline Sidemount Regulator Set offers effortless setup and streamlined operation. With compact and lightweight first and second stages, along with flexible hose routing options, this set maximizes mobility and minimizes drag, allowing you to maneuver effortlessly through underwater obstacles and tight spaces.

#### Built to Last, Engineered for Reliability

Constructed from high-quality materials and subjected to rigorous testing, the Tecline Sidemount Regulator Set is built to withstand the rigors of the underwater world.

From corrosion-resistant components to precision-machined internals, every aspect of this regulator set is designed for durability and reliability, ensuring years of trouble-free diving adventures.

#### Dive Deeper, Explore Further with Tecline

Elevate your sidemount diving experience to new heights with the Tecline Sidemount Regulator Set. Whether you're an experienced technical diver or a novice enthusiast, this innovative system empowers you to dive deeper, explore further, and discover the wonders of the underwater world with unmatched freedom and confidence.

#### **Experience the Tecline Difference Today**

Join the ranks of elite divers who trust Tecline for their diving needs. Experience the Tecline Sidemount Regulator Set and unlock a new level of performance, comfort, and reliability in sidemount diving.

### $\label{thm:constraint} \mbox{The TECLINE Sidemount regulator set consists of:}$

## AQUALUNG REVERSIBLE BLADDER COVERS

NEW Reversible Bladder Covers for the Aqualung Rogue & Outlaw Modular BCDs

Brighten up your Dive Equipment with this NEW upgrade from Aqualung, now you can truly personalize the style of your dive gear so that you stand out from the crowd with 4 different versions to choose from. These neoprene covers are super easy to install giving you the freedom to take advantage of the dual colour options as and when you feel the need to change.

Ref	DESIGNATION	RETAIL
BC145111	Bladder Cover - White Pink / Galaxy Pink	2,650 THB
BC145112	Bladder Cover - Blue / Galaxy Blue	2,650 THB

Created for anyone who wants to fully customize their dive gear, the Omni is a revolutionary jacket-style BCD designed to fit your specific style and size. Bringing ModLock™ technology popularized by our Rogue & Outlaw BCD's connector system, the Omni allows you to choose from 3 universal sizing components: for your back, your shoulders and your waist, allowing for dozens of size combinations. Continue your customization by choosing from multiple accessory options and 6 color kits. This is the ideal platform to create your perfect fit and you've got an infinity of possible configurations!

#### **Technical Features**

- $\mathsf{Modlock}^{\mathsf{TM}} \, \mathsf{connectors} \, \mathsf{allow} \, \mathsf{for} \, \mathsf{interchangeable} \, \mathsf{back}, \mathsf{shoulders} \, \mathsf{and} \, \mathsf{waist} \, \mathsf{strap} \, \mathsf{components} \, \mathsf{to} \, \mathsf{create} \, \mathsf{value} \, \mathsf{val$ dozens of possible sizes and configurations.
- $\mathsf{Modlock}^\mathsf{m}$  connectors easily click into place and are simply unlocked with a small tool such as a key or pen.
- Color kits available in 6 options with the following components: back pad, reusable mesh bag, Surelock™ Il weight pockets, octo pocket, console holder, inflator hold down, zipper pulls, and chest strap slider.
- Customizable jacket style BCD with the most desired features: zippered pockets, stainless steel D-rings, octo holder & knife attachment point.
- GripLock™ tank band patent pending finger-saver feature and macro presets create an easy and safe solution for securing and detaching a cylinder to the BCD.
- Patented SureLock II™ Weight System allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- A new 3-position bladder retraction system pulls in the sides of the bladder during deflation keeping the unit streamlined and reducing drag.
- Adjustable chest strap for personalized comfort.
- Features 4 Stainless Steel D-rings for streamlined accessory attachment.
- Both upper and lower right pull dump valves.

### Optional

- o Trim pockets (1.5kg/3lbs) o SMB pocket
- o Waistband Extender

## AQUALUNG PRO HD WOMEN

Strong. Sleek. Secure. The Pearl is a wrap-around, jacket-style BCD designed to fit the female diver. With its adjustable waistband and specially curved shoulder straps, you can customize it for a perfect fit. Plus, its lower profile lobes and shorter torso length help it rest comfortably on the hips.

### **Technical Features**

- HYBRID JACKET ADV-STYLE jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface.
- PATENTED SURELOCK II WEIGHT SYSTEM Single-pull weight release with patented SureLock II Mechanical Weight Release System
- **OCTO POCKETS** Two octo-pockets locations for versatility: right lobe and top of front lobe.
- · Gear Up! Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.

## AQUALUNG PRO HD COMPACT

Tired of paying excess baggage fees? This ultra-light, weight-integrated, back-inflation BCD is everything you need without extra weight or bulk. Lift it and feel for yourself that even a ML/LG weighs less than 4.75lb/2.2kg with airway and weight pockets included! Can be packed flat or rolled. The perfect BCD for travel.

### **Technical Features**

- Innovative tank support system eliminates the need for a hard pack.
- · A valve strap pulls the top of the cylinder in towards the center of gravity, transferring the load to the hips and relieving the shoulders.
- PATENTED SURELOCK II WEIGHT SYSTEM
  - Single-pull weight release with patented SureLock II Mechanical Weight Release System.
- · Great packability flat or rolled.

## AQUALUNG

### AXIOM - MEN

If you want the perfect comfort, fit, and performance for your dive, then you want the **Axiom** Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. This BCD provides the ultimate in diving luxury along with unmatched buoyancy support for easy trim and more stability to make underwater movements seamless.

#### **TECHNICAL FEATURES**

**WRAPTURE HARNESS**An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

#### SWEVELING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

#### SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth pull.

### AXIOM i3+ MEN'S

Power. Performance. Peace of mind. That's the Axiom i3+ Men's BCD. The incorporated exclusive i3+ inflation/deflation system means perfecting your buoyancy has never been so easy. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Focus on the important part of diving-enjoying it-with the Axiom i3+.

#### **Technical Features**

#### **WRAPTURE HARNESSTM**

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

#### SURELOCKII

Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth

#### **GRIPLOCK TANK BAND**

Finger-saving feature and macro presets create an easy and safe solution for securing and detaching a cylinder to the BCD.

#### **SWIVELING BUCKLES**

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

### **BLADDER RETRACTION SYSTEM**

Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

## AQUALUNG DIMENSION

- HP hose routings through the back keep your entire kit low profile thus minimizing drag.
- •The low profile flat valves reduce drag when moving through the water.
- A bladder retraction system is used to pull in the sides of the bladder during deflation. This keeps unit streamlined and reduces drag.
- · Adjustable chest strap for personal comfort.
- A clever octo-pocket on the right lobe secures the octopus while keeping it accessible and visible throughout the dive.
- Two large, easy-to-access utility pockets are found on either side of the Dimension.
- Easy-to-access knife attachment points on the left lobe accommodate most of the Aqualung knives.
- Features 4 stainless steel D-rings and 4 plastic D-rings (1 is located inside the left pocket) for all of your accessories.
- The Right shoulder pull dump provides an additional dumping option.
- Rolled neoprene neck collar for comfort.
- Non-ditchable weight pockets on the back of the BC help the diver achieve proper positioning in the water.
- All sizes are capable of holding up to 30 lbs / 13.5 kg of lead weight.
- Optional accessories include the Airsource, Squeeze lock knife and reflector kit.

### MEASUREMENT INSTRUCTIONS

Waist size in men is normally measured by placing the measuring tape around the waist, cresting the pelvic bone. This measurement is not accurate for BC fitting. The waist size in men should be measured at the height of the belly button just above the pelvic bone (Figure 1). Women's waist size is always measured just above the pelvic bone (Figure 1). This same measurement applies for BC fitting.

Over The Shoulder (OTS) measurement is taken by placing the measuring tape across either the right or left shoulder and reading the distance between the top of the waist line on the back to the top of the waist line in the front (Figure 2). Again, for this measurement in men the waistline is taken to be at the height of the belly button. When fitting the customer in his/her respective waist size and OTS range, inquire what thickness of wetsuit the BC is most likely to be worn with. Calculate about a 2" allowance for the waist measurements for thick, cold water suits.

FIGURE 1: Measuring points for waist size.

FIGURE 2: Measuring points for OTS length.

### A QUALUNG **WAVE**

When you think of the Wave BC, you think of an entry-level model that is rugged and fade resistant. With this latest Wave however, you get so much more. You now get a stylish BC that has the clever ability to add weight integration! Dive in its standard form using a weight belt and then upgrade to weight pockets, featuring our SureLock™ II weight system, whenever you're ready. It's versatile, it's rugged, it's sharp, it's a Wave.

- Made from tough, fade-resistant 1000D Armorshield™ Cordura®
- Accepts an optional SureLock II weight system (available separately)
- Comes in six sizes! XXS XL
- A scooped octo-pocket on the top front of the right lobe makes it easy to deploy and stow an octopus.
- Ability to run instrument console behind the left lobe and out the scooped instrument opening on the top front of the lobe
- Features two stainless steel flat D-rings
- Two large utility pockets are easily accessible and large enough to hold all of your accessories.
- Right shoulder pull dump with hi-viz orange pull bob
- Right, lower rear dump with hi-viz orange pull bob
- The waistband is adjustable and removable
- · Includes a chest strap

#### **SIZE XXS ALSO FEATURES:**

- A detachable double, adjusting crotch strap made with neoprene center for extra comfort
- An Optional tank band for 30 cu. ft. cylinder (Part number: 427056)

Due to the popularity of this BC in rental fleets, the inflator hose is not included.

# Modlock™ System

Aqualung's patent pending Modlock™ System is the future of custom BCDs. The revolutionary Modlock™ technology allows divers to fully customize their BCD for their specific size and needs, with an infinite number of possible configurations. No longer will you need to decide between that Medium or Large BCD. This system allows you to choose the size of each component individually, so you can go with a Large Back, Medium Shoulders, and a Small Waist to find that perfect fit. The Modlock™ connectors easily click into place and are simply unlocked with a small tool. In addition to size, you can also customize with different add-ons and colors to add your own unique style.

# Wrapture™ Harness System

The Wrapture™ Harness System provides comfort and stability. It allows a diver, wearing a cylinder, to stand up straight when out of the water.

The Backplate is very thin to keep the cylinder close to the center of gravity of the diver. It lowers the tank band and places it next to the waistband to keep primary weight on the hips as opposed to the shoulders and it laterally stabilizes the cylinder to keep it from swinging. The Valve Retention Strap pulls top of cylinder in close which shifts the weight downwards while taking stress off the shoulders. Thus the cylinder remains perfectly vertical. Note: Do not tighten all the way, just enough to keep cylinder vertical. A sheet of LDPE (low density polyethylene) plastic wraps around the diver's body for comfort and stability. It works in conjunction with the shoulder swivel buckles (patented) and supports the weight pockets. Keeping the back pad pulled in against the back it prevents ride-up. The swivels shoulder buckles allow shoulder strap to swivel backwards so that it can run under the diver's arm. The strap remains flat against the body and prevents ride-up of the BC.

There are several key elements that make up the Wrapture™ Harness System:

A specialized Backplate

vertical position

- Tank band (location)
- Valve retention strap
- LDPE plastic support (low density polyethylene)
- Swivel shoulder buckles (patented)

to the diver's gravity

# i3 Technology

Easy leveling on the hips

All BCs with i3 technology do have an oral inflator in addition

### i3: Innovative - Intelligent - Intuitive

- The i3 technology is a single touch control for both inflation and deflation.
- Tactile lever is easy to locate because the i3 never moves like a traditional inflator at the end of a floppy hose.
- Intuitive control lift up to inflate, push down to deflate.
- When the levered is moving down, it opens all of the flat e-valves at once.

#### Oral inflator

The inflator is easy to locate and deploy and can be stowed out of the way. The rubber lip block allows easy inflation even in the coldest waters. Just push against lips to open the valve. Can be removed to access rinsing port or to add an Powerline Inflator (if desired).

## PEANUT 16 TRAVEL SET COMFORT

To date, the wing under one cylinder Tecline "Peanut 16" – is the first and only asymmetrical wing in the world. Tecline Peanut 16 Asymmetric Wing (16L capacity) helps to achieve a more stable, comfortable position

#### Tecline Peanut asymmetric is a series of bags with unique features:

- Extremely large capacity of 16 L at a very small outer contour.
- · Very low weight of 890g.
- Lift capacity: 16kg/35lbs
- Outer layer is made of extremely soft Cordura 1000D.
- Inner bladder made of PU210.
- The asymmetric shape of the outlet for the inflator ensures easy dumping of gases.
- 3D construction enhances safety by the high position of the diver on the surface.
- $\bullet \ \, \text{The shape of the wing guarantees perfect management of the hoses coming out from the regulators In complete:}$
- "Peanut 16", Alu BP, backplate soft pad "H", soft back pad with buoy pocket, 2 weight pockets, 2 tank belts.

Ref	Designation	RETAIL
TLBCT12361BK	Peanut 16 (16kg/35lbs) - TRAVEL SET COMFORT (alu BP "H") - weight 2.90 kg Black	36,750 THB
TLBCT12361BL	Peanut 16 (16kg/35lbs) - TRAVEL SET COMFORT (alu BP "H") - weight 2.90 kg Blue	36,750 THB

### LIGHT TRAVEL SET DONUT 15 COMFORT

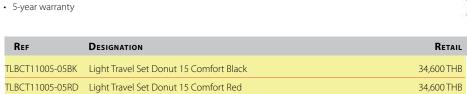

The Tecline wing BCD comes with a comfort harness, alu Backplate, Trim weight pockets, and a tank belt.

TECLINE DONUT 15 WING

### SPECIFICATION:

- Built-in adapter for single tank
- Capacity 15L
- Double layer (inner bladder made of PU-240 and outer shell made of durable Cordura)
- · Inflator with inflation hose included
- · Rear dump valve
- · Slots for tank bands

NEW (2025

The TECLINE Sidemount BCD Avenger Side16 is the cornerstone of the sidemount diving system, offering streamlined comfort and stability in the water. Designed to accommodate multiple tanks along the diver's sides, sidemount BCDs provide optimal buoyancy control and trim, allowing divers to maintain a horizontal position effortlessly while conserving energy and air.

Ideal for cave and recreational diving, CERTIFICATE CE EN1809 CE1463

The TECLINE Sidemount BCD Kit is one of the easiest on the market to configure and adjust the harness. The harness may be separately adjustable shoulder belts and / or belt ventral with easy adjustment that makes the best set of learning. Wing and harness form a single integrated set.

#### **Tecline Sidemount 16 Avenger Set Features:**

- · Buoyancy: 16kg
- · DIR harness that preserves the purity
- · The possibility of adding up to 19 kg of ballast
- 2 sets of additional ballast pockets available in 2 sizes (2 kg and 4.5 kg)
- 4 integrated ballast pockets (10kg total), which distributes the load in an ideal position on the back of the diver. These pockets are positioned slightly outwardly and below to provide a better finish and streamlining
- Pockets ballast abdominal belt will help divers dry suit by placing extra ballast towards the lower part of the body
- Pressure relief valve in a strategic and protected place on the lower back of the bag for easy emptying gas in the horizontal or upside down
- · The low profile of the bag reduces the resistance and the risk of being stuck
- · Inflator can be placed to the left and right
- · Detachable beaver tail for attaching heavier steel cylinders and accessories

## **CONSOLE SLIMLINE 1**

Our PSI Consoles Slimline series offers a larger dial, easy to read and a robust design.

- Pressure gauge (Zero to 350 Bar)
- · Wide angle, easy to read
- · Luminous and easy to read dial

REF	Designation	RETAIL
PSII1100	Console Slimline, 1 instruments.	2,960 THB

### CONSOLE SLIMLINE OXYGEN PG

PSI Slimline Oxygen console with Pressure gauge from Zero to 350 Bar

- Pressure gauge (Zero to 450 Bar)
- · Wide Angle, easy to read,
- Compatible with Oxygen 100%

Ref	Designation	RETAIL
PSII1120	Console Slimline Oxygen, 1 instruments.	3,290 THB

## CONSOLE SLIMLINE TECH

Ref	Designation	RETAIL
PSII1310	Pressure Gauge Tech - Black Dial - 52mm diameter	3,100 THB

### **CONSOLE SLIMLINE 2**

Our PSI Consoles Slimline series offers a larger dial, easy to read and a robust design.

- 2 instruments
- Pressure gauge (Zero to 400 Bar)

- Wide angle, easy to read
- · A popular choice for dive lockers rental.

• Depth gauge

Ref	Designation	RETAIL
PSII1110	Console Slimline, 2 instruments.	5,250 THB

### CONSOLE MINI 2K 1 INSTRUMENT

Our PSI Consoles Mini 2k series provides a wide angle, easy to read and new robust compact light weigh design.

- Compact and lightweight design
- · Luminous easy to read dials.
- Pressure gauge (Zero to 400 Bar)

Ref	Designation	RETAIL
PSII1200	Console Mini 2k, 1 instrument	2,960 THB
PSII1200W	Console Mini 2k White, 1 instrument	3,100 THB

### CONSOLE MINI 2K 2 INSTRUMENTS

Our PSI Console Mini 2k with pressure and depth gauge provides a wide angle, easy to read and new robust compact light weigh design.

- · New robust design
- · Compact and light weight
- Pressure gauge (Zero to 400 Bar)
- · Depth gauge Oil filled
- · Wide angle, easy to read

Ref	Designation	RETAIL
PSII1210	Console Mini 2k, 2 instruments	5,250 THB

## CONSOLE MINI 2K 2 INSTRUMENTS/COMPASS

Our PSI Consoles Mini 2k series provides a wide angle, easy to read and new robust compact lightweight design.

- Pressure gauge (Zero to 400 Bar)
- Compass included
- · Luminous easy to read dial

Ref	Designation	RETAIL
PSII1220	Console Mini 2k, 2 instruments/Compass	4,650 THB

### CONSOLE MINI 2K 3 INSTRUMENTS

Console includes PG & DG & Compass

- New design
- · Compact and light weight
- Pressure gauge(Zero to 400 Bar)
- Depth gauge Oil filled
- · Compass, Wide angle, easy to read

Ref	DESIGNATION	RETAIL
PSII1230	Console Mini 2k, 3 instruments, All-in-one compact design	6,850 THB

### TECH SIDEMOUNT PRESSURE GAUGE

The 400 bar brass submersible Tech Sidemount pressure gauge capsule with a protective rubber boot is designed for tech and sidemount diving.

- 400 bar brass submersible pressure gauge capsule
- Protective rubber boot
- 200mm / 7 Inch high pressure hose
- · Luminous dial
- Designed for tech and sidemount diving

Ref	Designation	RETAIL
PSII1215	Console Mini 2K Sidemount 7" HP hose - Pressure Gauge	3,050 THB

### ANALOG GAUGES & COMPASS

#### **PRESSURE GAUGE**

The Aqualung Pressure Gauge delivers both remaining air pressure and temperature in one easy-to-read display.

- Easy-to-read scale up to 5,000 PSI / 350 bar rated
- · Luminescent gauge face for easy reading in low light
- Integrated temperature scale
- Nitrox compatible up to 50%
- Shock resistant Bourdon tube
- · One way safety valve
- · Hose length is 36"

• Available in imperial or metric

#### **DEPTH GAUGE**

The Aqualung Depth Gauge, with its specially designed depth scale and luminescent gauge face, allows for easier reading at a glance.

- High fidelity depth scale provides accurate and easier reading at shallow depths
- On the wrist mount version, the strap is designed to fit a variety of wrist sizes and wet/dry suit diameters
- Maximum depth indicator
- · Luminescent gauge face for easy reading in low light
- 200 foot / 60 meter maximum depth
- Wrist mount boot allows for future upgrade to the i300 dive computer module

- · Available in imperial or metric
- · Available in wrist mount or drop-in for console

#### **ANALOG INSTRUMENT CONFIGURATIONS**

- 2 gauge console includes Pressure Gauge, Depth Gauge and Writing Slate (provides option to add in a Compass)
- 3 gauge console includes Pressure, Depth and Compass
- Single unit Pressure, Depth or Compass option available

Wrist Compass

# i330R Dive Computer

The i330R is the ideal choice for advanced divers who love exploring the world and need to rely on their dive computers anywhere they are. Thanks to its bright color screen, readable even in sunlight and its rechargeable battery, it won't let you down. With its 4 modes, 3 nitrox mixes, and Bluetooth connection, this is the best value for money dive computer from our line-up. Even on the other side of the world, stay connected with your friends and share the details of your diving adventures on social media via the Diverlog+ app from your mobile device.

#### **Technical Features**

Bluetooth with twice the data transfer speed (2 Mbps) for uninterrupted connection and four times the communication distance as compared to Bluetooth 4.2.

IPS ("In-Plane Switching") screens provide better visuals with richer colors and accurate viewing from all angles, even in direct sunlight.

### MAGNETIC CHARGING CONNECTION

Power your dive computer in a snap with Aqualung's magnetic charging cable.

### NATO STRAP

NATO STRAP
This unique strap design doubles back to create a full loop. A simple buckle closure helps the computer stay centered and fastened on your wrist.

## AQUALUNG i300C

Bluetooth technology is now added to the popular i300C, making it even simpler to use

- Bluetooth connectivity. Now equipped with Bluetooth technology that offers the user a simple and quick wireless exchange of dive log information with the DiverLog app and fast connections with their buddies on social media
- 4 operating modes. Air, Nitrox, Gauge (with run timer) and Free Dive (tracks calculations to allow switching
- User-changeable battery and data retention. Maintains settings and calculations between battery
- · 3 Gas computer. Able to switch up to three gases underwater
- Backlighting. For easy reading in low light

#### **OTHER MAIN FEATURES**

- · Audible alarms and additional high-visibility LED warning light for increased safety
- User-updatable software gives access to the latest features and upgrades
- · Pre-Dive planning feature allows a preview of your next dive
- · Water activation feature, to give a no-worries start to the dive
- Single button press access to last dive display (max depth and bottom time)
- · History Mode includes total number of dives, max depth, total dive hours and lowest temperature
- 3 Nitrox mixes to 100% O2
- · Optional deep stop with countdown timer
- · Salt or fresh water dive selection
- · Automatic altitude adjustment ensures an accurate profile
- Simple to use with DiverLog software on the Mac, PC, or mobile platforms, which allows you to control all your dive computer settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos. DiverLog must be purchased separately at www.ediverlog.com

The i100 is the perfect dive computer for the new divers. With simple one-button navigation, you can select from four operating modes and manage two gases. The computer will also retain all your settings  $and\ calculations\ between\ battery\ changes.\ Safety\ features\ such\ as\ audible\ alarms\ and\ a\ high-visibility\ LED$ warning light are included. The i100 dive computer provides all the essential functionality you need, a compact design, and a great price.

- 4 operating modes. Air, Nitrox, Gauge and Free Dive (tracks calculations to allow switching between DIVE
- User changeable battery and data retention. Maintains settings and calculations between battery changes
- · Intuitive one-button navigation
- 2 Nitrox gases

#### OTHER MAIN FEATURES

## CREST CR1

The CREST CR1 is a durable and user-friendly dive computer designed for dive training and recreational diving. Engineered for reliability, it features a large, easy-to-read display with a simple interface, making it perfect for beginners and professionals alike.

### Feature:

- Designed for Dive Training & Education Ideal for diving courses, rental use, and recreational diving.
- Waterproof Battery Compartment Easily replace the CR2450 battery yourself with the sealed compartment design.
- Multiple Dive Modes Includes SCUBA, Gauge, and Dive Plan modes for versatile underwater use.
- Clear and Readable Display High-contrast black-and-white LCD for enhanced visibility underwater.
- Reliable & Durable Build Sturdy construction with wide silicone straps for a secure and comfortable fit.

### **Specifications**

- Depth Rating: 100m (10 ATM)
- Dive Algorithm: Bühlmann ZH-L16C
- Gas Support: Air, Nitrox (EAN 21-99%)
- Battery Life: Up to 300 dives\*
- Log Storage: 500+ dives
- Weight: 58g
- Strap Type: Silicone

# PLAZMA

For new and experienced divers, the Plazma is the only frameless panoramic diving mask that delivers a perfect fit with excellent comfort from surgical grade premium silicone and ExoHex stability. The Plazma mask delivers a lightweight and compact, low-profile design in fresh, exciting color combinations and is available with Clear and Advanced Mirror lens options.

- No strapping design thanks to patented Micromask technology by Aqualung
- Frameless constructions utilizing Aqualung proprietary Micromask Technology
- · Pressure reduction zones are incorporated into the silicone skirt at strategic points to help relieve the pressure of the mask on long dives. This engineered design utilizes these reinforced zones to improve also skirt stability at traditional weak points
- · Two lens options: Clear and Amber, that reduces glares in shallow water and enhances red colors in deep water
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves
- · Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- · Preformed mask strap better forms to the diver's head, increasing comfort and provides a more secure fit
- · Reusable protective case

# 🖚 A QUALUNG REVEAL ULTRAFIT

Celebrate everything the underwater world has to offer when you see it through the Reveal UltraFit dive mask. Our most comfortable mask provides the best fit with its three sizes and adaptable skirt shape for all faces. Easily interchange lenses via a snap-in frame and a special included tool. With innovative features and materials, you've never owned a more advanced mask.

### **Technical Features**

- UNIVERSAL ADVANCED SILICONE SKIRT Our advanced technology and wrap-around geometrical shape made of crystal-clear, soft silicone provides the perfect fit for the widest variety of face shapes and sizes.
- QUICK RELEASE BUCKLES Even thick gloves won't get in the way of this one-touch adjustment system with buckles attached directly to the silicone skirt for added stability of the mask on the face.
- ADVANCED FIT TECHNOLOGY Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.
- PRESSURE REDUCTION ZONE Each mask is reinforced for stability and pressure points are reduced to maximize comfort and eliminate leaks.

CLINE

FRAMELESS SUPER VIEW MASK

The Tecline Frameless Super View mask is a must-have for divers of all levels. Offering the widest field of view among frameless masks, it conforms comfortably to the face and requires minimal gas to clear water. Its hydrodynamic shape ensures efficient drainage of exhaled air, keeping the diver's view unobstructed.

Designed for technical diving and other underwater applications, this mask features a frameless construction and small volume design. Its durable metal fastening of mask strips ensures a secure fit, while the quick and easy mask strap adjustment feature provides customized comfort for every diver.

### **Key features include:**

- Exceptional 170-degree view thanks to a short distance between glass and eyes
- · Enlarged angle of view downwards
- Low volume
- Metal strap buckles
- · Ultra-lightweight
- Soft, black silicone frameless mask
- · Perfect adherence to the face

### **Technical Features**

 $The \, Line a \, uses \, the \, Micromask \, technology. \, It's \, very \, close \, to \, the \, face, \, has \, a \, very \, low \, volume$ and is extremely lightweight. With its single lens the Linea offers a maximum field of vision.

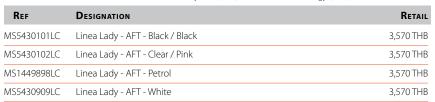

- Using Micromask technology, the Linea's lens, skirt and frame are molded together in one shot as opposed to other masks where multiple pieces are snapped together. This allows the lens to come close to the face which maximizes the field of vision.
- · Low volume means that the mask is easier to clear and reduces the buoyancy
- Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face
- The mask skirt goes further back on the face enhancing the comfort and reducing the marks left behind on the face.
- The clever Comfort Buckle System (CBS) prevents the diver's hair from getting tangled in the buckle

Comfort Buckle System (CBS)

Advanced Fit Technology (AFT)

## **P**AQUALUNG LOOK

Classic and elegant, put forward again the Look formula in a modern fashion with added technical features. The inclined-to-the-cheeks frame design produces a mask with an excellent view upwards and downwards. New colours matching with Technisub/Aqualung catalog.

### **Technical Features**

- $\bullet \ \mathsf{Double} \ \mathsf{lens}, \mathsf{3} \ \mathsf{mm} \ \mathsf{tempered} \ \mathsf{glass}. \ \mathsf{New} \ \mathsf{twin} \ \mathsf{buttons} \ \mathsf{seeger} \ \mathsf{release} \ \mathsf{system}, \mathsf{it} \ \mathsf{make}$ glass locking rings removal quick, safe and easy.
- Pure silicone mask skirt it fits like the Micromask skirt.

### **ICON**

### **Technical Features**

Style & performance, the PSI Icon mask is the ideal twin-lens mask for skin and scuba divers.

Equipped with clear HD lenses and a hi-grade silicone skirt designed for increased comfort. The Icon mask offers low-volume and optimized inclination angle that improve the field of view.

The skirt's all-in-one design ensures firm but gentle contact with the face. Pulling on the strap keeps a tight yet gentle seal leaving fewer impressions on your skin.

Low Volume – Reduced inner volume of the mask promotes a wider vertical and horizontal field of view.

The release buckle and fine pinch strap adjustability make it easy to find the most comfortable fit even when wearing thicker gloves. Can be adjusted using only one hand for better flow.

## AQUALUNG ZEPHYR FLEX

Zephyr Flex's unique dual-material construction combines rigidity and flexibility for dependability and comfort. The Zephyr Flex is a corrugated snorkel, with an elliptical purge valve and an anti-shock soft splashguard. The unique construction uses two materials, one rigid to prevent collapse and the other soft to allow flexibility which reduces pressure on the diver's mouth. Thanks to the elliptical purge valve, the Zephyr Flex creates a seal against incoming water and makes easy work of purging water away. The anatomically-designed silicone mouthpiece reduces jaw fatigue and the soft splashguard top helps to reduce water entry at the surface in choppy conditions. The ergonomic snorkel retainer is easy to operate, even with thick gloves.

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- •The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- •The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- •The corrugate is made from two materials, one rigid and the other flexible. Corrugates from other manufacturers collapse even on shallow dives. Zephyr Flex does not, thanks to the rigid skeleton that keeps it in shape. The flexibility also provides an important fitting benefit: it lets the mouthpiece set softly into the diver's mouth without stress, improving comfort and reducing jaw fatigue.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.
- The splashguard is made from two materials with the same corrugate technology. This rigid, yet flexible construction helps prevent potential injuries in crowded environments such as diving clubs, classes and on boats.

The PSI Prodive Nautilus Foldable snorkel rolls up and can be carried in a BC pocket or hung from a D-ring. The snorkel deploys in a snap, making it the most travel-friendly snorkel ever.

You know you're supposed to have one, but most scuba divers find a heavy, rigid plastic snorkel to be a drag on diving comfort. Therefore the PSI Prodive Nautilus Snorkel is the solution.

This product is designed to be carried rolled up in your buoyancy vest pocket and only removed when required.

- Design for BCD pocket
- Easily snaps to its original shape when unrolled
- Food grade silicone made, safe to use.
- Different colors. Easy to match with your diving masks or fins.

# STORM

The Storm fins are great all-around fin ideal for travel. Produced using Monprene®, a single material construction gives both durability strength while maintaining exceptionally light weight, exactly what the traveling diver requires. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for sizing. Available in a wide range of 4 sizes covering from junior to adult.

- Barefoot open heel storm fin, made in a single TPV compound Monprene®
- · Silicone bungee strap equipped with heel pad for easy on-and-off
- · Excellent grip on the underside to reduce slippage on deck
- · Access hole in the blade for easy transport and storage
- Simplified size identification by color-coding on the bungee protector and blade insert

# AQUALUNG PHAZER

From beginner to expert, Aqualung's Phazer fins, with its revolutionary composite wave rib technology, provides the perfect balance for divers to produce powerful kicks with easy but energy-maximizing movements.

Designed and produced with a tri-material construction and an advanced canalization system, everything about this fin is engineered to optimize the energy you load and release with every kick.

- **Wave Rib Technology:** The revolutionary side ribs are the heart of the Phazer fins. The elastomeric rubber sections of the ribs work together with the wave-shaped structures, accumulating (loading) the energy of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick, suitable for beginners as well as for expert divers.
- New Bungee Strap: Equipped with new bungee strap and heel-pad for quick and easy donning and doffing.
- Tri-Material Construction: Tri-material construction optimizes every single area of the fin: foot-pocket, blade and side ribs are made with different specific advanced materials to get the best performance.
- **Hydro Power Channel:** Thanks to the engineered channel in front of the foot pocket, the water can flow through the blade, enhancing efficiency, power and stability, making the Phazer a powerful and ideal fin both for professional scuba divers and students.
- **New Canalization System:** The blade features a soft TPR membrane to better canalize water during the primary and recovery portions of the kick cycle.

# (\*\*) AQUALUNG STRATOS ADJ.

An excellent choice for divers entering the sport, the Stratos ADJ is easy to kick. The dual-material blade is designed to quickly reach the optimal angle needed to move water quickly and efficiently. This highly durable fin is a popular choice for resort rental programs. The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin

- Dual-material side ribs and blade help transfer maximum energy from foot pocket to blade tip.
- · The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling.
- The dual-material foot pocket's Power Transmission Zone prevents stretching during the power stroke
- Quick Release buckles are easy to operate and make exiting the water hassle free.
- · Ergonomic straps adjust easily, even while wearing thick gloves.
- · Colors: Yellow, Orange, Blue and Black

## AQUALUNG EXPRESS ADJ.

The Express ADJ fin represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. Strap a pair on and see for yourself.

The Express fin works on the same principle as the popular Slingshot and Hotshot fins. The function of the Slingshot power bands has been converted into the Express "Armadillo". This patented, elongated membrane is made from ultra-elastic rubber. Like power bands, it accumulates elastic energy during the down stroke and returns it at the end of each kick cycle.

The Armadillo also bridges the gap between the front of the foot pocket and the back of the blade, which eliminates any water transfer through the fin.

- The blade connects halfway back on the foot pocket at the Mid-Foot Flex Joint. This eliminates hyper-extension of the toes and ankles.
- · The foot pocket is not only comfortable, but provides different thickness zones which properly secure the foot to the blade for maximum energy transfer.
- · Rubber side ribs channel the water down the length of the fin minimizing the spill-over effect.
- Features the ESBS (Ergonomic Strap and Buckle System). The protruding press to-release buttons can be operated easily even while wearing thick gloves.
- The strap, made of rubber with anti-aging compounds, has three convenient loops. This makes strap easy to tighten or pull up over the heel even with the thickest of gloves
- · Oversized, anti-slip rubber pads on the bottom of the fin

CLEARANCE

## AQUALUNG STRATOS 3

- Ergonomic foot pocket
- Grip Effect inside the foot pocket
- 4 channel structure
- TORSION ENERGY POINT: a 3-materials side rib area that helps the blade flexing. The bending point has been moved backward. Benefits: more powerful kick with less effort
- · Side wings enhanced swim performance and stability
- · Anti-slip rubber pads

## 🔁 AQUALUNG WIND

- Travel-size blade and lightweight make the fin ideal for any adventure.
- Blade made of two materials of light polypropylene with rubber inserts, offering comfort and durability.
- Comfortable and ergonomic foot pocket designed to accommodate the anatomy of the foot.
- Grip Effect inside the foot pocket to ensure foot stability.
- · Tab on the heel for easy don & doff.

**FINS** 

- Rigid sole guarantees an optimal protection of the foot and a good power transmission to the blade
- · Anti-slip rubber pads.
- · Structured side ribs ensure progressive and controlled bending.
- Colors: Blue, Hot lime and Black
- Hot lime color option made with Hi-Vis Technology for great underwater sighting.

If you are looking for a pair of fins that combine recreational lightness and technical functionality, look no further than the Tecline LightJet fins. The Tecline LightJet fins are made of thermoplastic vulcanisate (TPV), a new, flexible material that is also 100% recyclable. They feature an ergonomic open heel with stainless steel springs for comfortable donning, using and doffing. The blade has a hole for easy hanging and storage, and a line of additional holes along the blade for improved water flow and performance.

Try the Tecline Light Jet Fins and discover the ease and comfort of traveling with lightweight fins, weighing only 0.8kg-1.2kg, yet providing high performance.

The Tecline Light Jet fins are available in blue, white and black, and in sizes S/M, L, XL. Whether you are flutter kicking, frog kicking, back kicking or helicopter turning, the Tecline LightJet fins will give you the power and manoeuvrability you need.

### **Specifications:**

- Material: Thermoplastic Vulcanisate TPV (new, flexible material with optimal properties for recreational fins, produced from recycled materials, 100% recyclable)
- Mounting system: Stainless steel springs
- Ergonomic shape of the boots (open heel)
- Holes for easy hanging (for storage, transport, or drying)
- Weight of one fin with springs: 0.8kg 1.1kg (depending on the size)
- Available sizes: S/M, L, XL

# SPRINTER

The new PSI Sprinter diving fin exceeds the performance of the traditional model thanks to the use of combined dual materials that optimize efficiency. The Sprinter offers great responsiveness and thrusting power with an attractive look.

New Spring Strap is provided standard. Proven Channel Thrust technology makes the fin versatile and ideal in all diving conditions. The stabilizers improve stability, eliminating ankle twisting phenomena. The anatomical foot pocket conveys more power to the blade.

- $\bullet \ \, \text{The dual-material foot pocket offers a Power Transmission Zone to prevent stretching.} \, \text{This provides}$ maximum energy transfer from diver to fin
- Equipped with a new spring strap and a heel pad for quick and easy donning and doffing.
- The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling
- Quick-release buckles

## AQUALUNG SUPERZIP 5MM

The Superzip has an extra-thick sole, heavy-duty protective panels on the upper, and a durable zipper to withstand years of use without tearing. This is the boot for an avid diver who needs to be prepared for cold water, rough terrain, less-than-luxurious boats, and murky, low-viz conditions that hide hazards

### **Technical Features**

- Ergonomic: Like the rest of the Aqualung boot line, the Superzip uses our patented, anatomically correct ERGO™ shaped footbed and outsole to match the profile of your foot, preventing excess water retention and offering comfortable support.
- Protective: 8mm-thick treaded sole provides premium protection against punctures, stings, and slips. For added protection and durability, the panels on the heel cap, toe, and top of the foot are twice as thick as in the standard boots!
- Warm: 5mm neoprene upper for the right amount of warmth in any conditions.
- Comfortable The Superzip boot uses just a few seams, which are placed away from the widest parts of the feet to minimize chafing.
- **Durable Closes:** with a heavy-duty, non-corrosive #10 YKK toothed zipper. Elastic binding at the top resists wear and tear.
- Eco-Conscious Packaging: Ships with minimal carbon footprint packaging. No plastic bags

## AQUALUNG SUPERLOW BOOT 3MM

This 3mm neoprene, low-top, pull-on boot has a sturdy, supportive 8mm sole while remaining lightweight. It's perfect for adding moderate warmth and significant protection during warm-water shore dives or on areas where splinters, sea urchins and barnacles can pose puncture hazards to your feet. Designed to be worn with open-heeled fins.

- Ergonomic: Like the rest of the Aqua Lung boot line, the Superlow uses our patented, anatomically correct ERGO™ shaped footbed and outsole to match the profile of your foot, preventing excess water retention and offering comfortable support.
- Protective: 8mm-thick treaded sole provides premium protection against punctures, stings, and slips. For added protection and durability, the panels on the heel cap, toe, and top of the foot are twice as thick as standard boots.
- Warm: 3mm neoprene upper for the right amount of warmth and protection
- Comfortable: The Superlow boot uses just a few seams, which are placed away from the widest parts of the feet to minimize chafing.
- $\bullet \ \ \textbf{Eco-Conscious Packaging:} \ Ships with minimal carbon footprint packaging. \ No plastic bags.$

SEAWALK 3MM DIVING HALF BOOTS

The ideal warm water dive boot, SeaWalk Boots are made from as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Fewer seams don't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

- Material: 3mm neoprene with nylon jersey fabric
- · Customized logo printing
- · Natural rubber extra protection on the instep
- Thick rubber sole, extend to toe for more protection
- · On back with stopper

Even in warm waters, it's a good idea to protect your feet with socks. In addition to adding a layer of warmth, the low-top Ergo Neoprene Sock prevents blisters while wearing open-heel fins. It guards against scrapes and stings when wading in and out of the water during shore dives, and allows you to walk safely on hot surfaces.

- Best Fit: There's no baggy, unused material due to the right and left foot-specific designs.
- Grip Option: Select the silicone print option at check-out for added control.

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

- Best Fit: There's no baggy, unused material due to the right and left foot-specific designs. The Ergo socks fit smoothly for warmth and sensation.
- Grip: Silicone print on the sole prevents slipping to help you keep your balance while geared up.
- Warm: Glued and blind-stitched seams prevent water from entering. The high top gives you room for overlap with your wetsuit, and 3mm-thick neoprene provides effective insulation.
- **Durable:** The elastic-bound cuff keeps seams from fraying after repeated use and plenty of abuse

# **Sealife** MICRO 3.0 - 4K

The SeaLife Micro 3.0 series of permanently sealed cameras is the easiest way to immerse yourself into the world of underwater imaging. The Micro 3.0 camera cannot leak, and is ready to dive right out of the box, simply charge the battery and submerge. The Micro 3.0 requires no maintenance – just wash and clean after use. The camera offers impressive results with its large SONY® 16MP CMOS sensor and 4K Ultra HD video.

The Micro 3.0 has 64GB of internal storage. Images and videos can be transferred to Android or IOS devices via the SeaLife Micro 3.0 App or by USB cable. The SeaLife Micro 3.0 is available as a camera only model, or as a complete set, including either one Sea Dragon 3000F Auto or two Sea Dragon 2500F underwater LED lights.

- 16MP SONY® 1/2.3" Image Sensor
- 100° Wide Angle Lens
- · 64GB internal memory
- 4K@30fps or 1080p@120 fps Video
- Easy to use "Piano Key" controls
- JPG and RAW image capture
- · Built in underwater color correction
- · Manual White Balance available
- · Burst Shooting at full 16MP resolution

## MICRO 3.0 PRO DUAL BEAM SET

The SeaLife Micro 3.0 Camera is the latest and third generation of the popular permanently-sealed Micro camera series The camera is leak-proof with no O-rings to lube or maintain, so there is never a worry about flooding the camera. Like its forerunners, the Micro 3.0 features an ergonomic, compact design with easy-to-use controls and menus.

The Sea Dragon 3000SF Pro Dual Beam's large COB LED delivers 3000 lumens in an even 120° wide beam. The light offers an impressive 90 CRI (color rendering index) with a proprietary COB LED array that replicates natural sunlight (A CRI of 100 would be just like natural sunlight). The 15° spot beam has a CRI of 70. The light also has two 88°, 180 lumen red LEDs for night diving.

- Includes Sea Dragon 3000SF Pro Dual Beam's large COB LED
- Optimal light coverage with Micro 3.0
- 16MP SONY® 1/2.3" Image Sensor
- 100° Wide Angle Lens
- 64GB internal memory
- · 4K@30fps or 1080p@120 fps Video

- · Easy to use "Piano Key" controls

- · Includes SeaLife SportDiver Smartphone camera app designed by SeaLife

# **Sealife** SEA DRAGON 2500F

The Sea Dragon 2500F uses flat panel COB LED technology to closely mimic natural sunlight, bringing out amazing colors in underwater photos and videos.

With a Color Rendering Index of 90, the Sea Dragon 2500F solves the issue of blue underwater photos and videos by giving divers the ability to add light down to 200 feet/60 meters with portable sunlight.

REF	Designation	RETAIL
SL671	Sea Dragon 2500F COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	15,860 THB
SL6712	Sea Dragon 2500F COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	14,090 THB

## **Sealife** SEA DRAGON 3000F AUTO

The Sea Dragon 3000F Auto delivers 3000 lumens over 120° smooth, even beam angle without a hot spot. Two red LEDs emit an 88° wide "stealth mode" beam that won't scare away nighttime sea creatures and preserves your eye's natural night vision. Powered by a rechargeable 25Wh lithium ion battery, the light burns for a full hour at 100% power at constant brightness with its new COB LED 120° beam angle. Depth rated to 330ft / 100m.

The Sea Dragon 3000F Auto includes a Flex-Connect Grip and single tray. Easily expandable with Flex-Connect Grips, Arms, and Travs

# SEA DRAGON 3000SF PRO DUAL BEAM

The compact Sea Dragon 3000SF Pro Dual Beam Photo-Video light is the perfect all-around photo, video, and dive light. With a simple one-button push, you can switch from the wide 3000 lumen 120° beam to a narrow 1500 lumen 15° spot beam. For imaging, the spot beam offers many creative opportunities such as to create a narrowly focused snoot or stage spotlight effect. The spot beam also serves as a primary or secondary dive light for most diving applications. Two red LEDs make this the perfect light combination for both day and night dives.

The narrow beam feature has a long effective range making it useful to see in dark areas and discover hiding fish. The Sea Dragon Pro Dual Beam also offers two 180 lumen 88° red LEDs. Red light won't affect your own eyes' night vision or scare-off light-sensitive sea creatures, a simple push on the feature button shifts the light from red to the wide beam at 3000 lumens. You are ready in an instant to capture still or video images.

**Sealife** sea dragon 3000f color boost™ led

### High-performance 3000 Lumen Underwater Photo-Video Light with Color Boost

The Sea Dragon underwater photo-video light delivers 3000 lumens in a 120° wide beam without hotspots. A 90 CRI (color rendering index) COB LED array simulates natural sunlight, allowing the user to capture vibrant colors and sharp details in underwater photos and videos.

The new patent pending SeaLife Color Boost™ mode combines specific red and white light frequencies, producing a warm and vibrant underwater color effect. Red is the first color in the visible light spectrum filtered out by water. The light's Color Boost feature replenishes the lost red for a balanced, warm color effect.

## SEA DRAGON 5000+ COB LED

The compact Sea Dragon 5000+ with Color Boost™ Photo-Video light is a powerful photo, video, and dive light that replenishes lost colors underwater by combining red and white light frequencies for a balanced, warm effect. With a simple one-button push, you can switch from a brilliant 5000 lumen beam to the Color Boost feature to the Color Boost feature, which adds warmth by using the light's proprietary red LED's to a warm color temperature of 3700 Kelvin. Brightness output can also be adjusted to 6000 lumen for a 2 minutes time (to conserve power) and 6000 lumen with Color Boost (4000K Color temp.), 3000 lumen, 1500 lumen, and Red-only "Stealth" mode. The two red LEDs alone are perfect for night dives.

## Sealife SEA DRAGON DUO 3000F SET

The Sea Dragon Duo 3000 Flash underwater lighting set includes the Sea Dragon 3000F Auto Photo/Video Light, Sea Dragon Flash, and Flex-Connect Dual Tray and Grips—providing versatility for shooting colorful photos or videos. The best still images are captured with a flash, and the Sea Dragon strobe auto-learns your camera's pre-flash instantly. The Duo 3000 Flash set also includes the Sea Dragon 3000F Auto, which offers Auto Flash Detect Mode—a feature that turns off the 3000-lumen light for one second while your flash fires and the camera captures the photo. Auto Flash Detect helps eliminate undesirable shadows, color shifts, or backscatter. An additional feature of the 3000F Auto light is the Auto Bright Mode, which automatically dims the light based on the proximity of the subject.

- · Three Brightness modes
- 120° wide beam angle
- Depth rated to 330ft / 100m
- · Corrosion-proof light heads
- · Removable 25Wh 3400 mAh Li-lon battery

## AQUALUNG EXPLORER 45L

Perfectly proportioned for carry-on luggage, the Explorer 45L lets you keep essential scuba gear close when travelling. Padded adjustable shoulder straps make carrying easy, comfortable, and hassle-free. Keeping your equipment safe, this ideal bag for multi-day dive trips has 45 litre capacity and two exterior pockets for convenient storage. Tough, durable, water-repellent fabric protects your gear and keeps the Explorer 45L looking great for longer.

- Tough water-repellent PVC outer protects contents and retains high-quality appearance.
- · Perfect for carry-on luggage, lightweight with 45L capacity.
- · Convenient full zip for easy access to equipment.
- Additional storage with easily accessible exterior pockets.
- size and capacity meet airplane carry-on regulations.
- Daisy chain to attach all your accessories.
- Dimensions: 55x26x28 cm / 980 q, 21.6x10.3x11 in / 2.62 lbs

Ref	Designation	RETAIL
BA207040145L	Explorer 45L, 55x26x28cm / 980 g	4,450 THB

This rolling luggage accommodates a full dive kit and all your other travel gear. Designed specifically for scuba, it features side pockets that fit larger fins, such as the Aqualung X-Large Phazer. Coordinates with the rest of our Explorer II Collection of bags.

- Easy to Transport: Rugged wheels get you through the airport easily. Lightweight, extendable aluminum handle. Top handle for lifting.
- Designed for Scuba: Side pockets to fit even the largest of fins.
- Protective: Internal frame structure is designed to rebound and be shock-absorbent. The V-diamond base, skid rails and eight corner guards keep your gear safe from the airport bag handlers. Zippers accommodate locks.
- Durable: Made with heavy-duty 1680D polyester exterior material, lined with abrasion-resistant PVC coating. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited
- Stow More: Exterior and interior pockets for organizing your gear, clothes, and other essentials.
- **Size:** 29 x 20 x 13" (73 x 51 x 33cm)
- Weight: 9.5lbs (4.4kg)

Ref	Designation	RETAIL

## AQUALUNG EXPLORER II DUFPACK

With its carry-on size, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. Designed specifically for scuba, with fin straps that hold any size fin. Part of the complete line of Explorer bags to get you completely outfitted for dive travel.

- Durable: Made of heavy-duty, 1680D polyester and mesh. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- Convertible: Adjustable shoulder straps double as duffle handles.
- Designed for Scuba: Dry your wet accessories while you travel in the duffle's mesh drying pocket. Fin straps on the back of the bag hold any size fin. Protective Internal padding gives the bag shape and protects your gear. Protective V-diamond base and six corner guards. Zippers accommodate locks.
- Stow More: Includes a smaller sunglass pocket and two exterior pockets for extra storage.
- Size: 24 x 13 x 9" (61 x 33 x 23cm)
- Weight: 3.5lbs (1.5kg).

## ALSAFE TANKS AIR

PSI Twin Isolation Valve complete

Al-can is India's First Manufacturer of High Pressure Aluminium Cylinders for scuba diving. Aluminium Cylinders are suitable for under water diving with the following advantages:

- Do not rust even in salt water.
- · Light weight.

FHV06

• Easy to carry.

# **PSI** V-FLEX

New compact and performant open heel snorkelling or diving Fins. Easy to adjust and no boot required. Come with neoprene pad for top comfort.

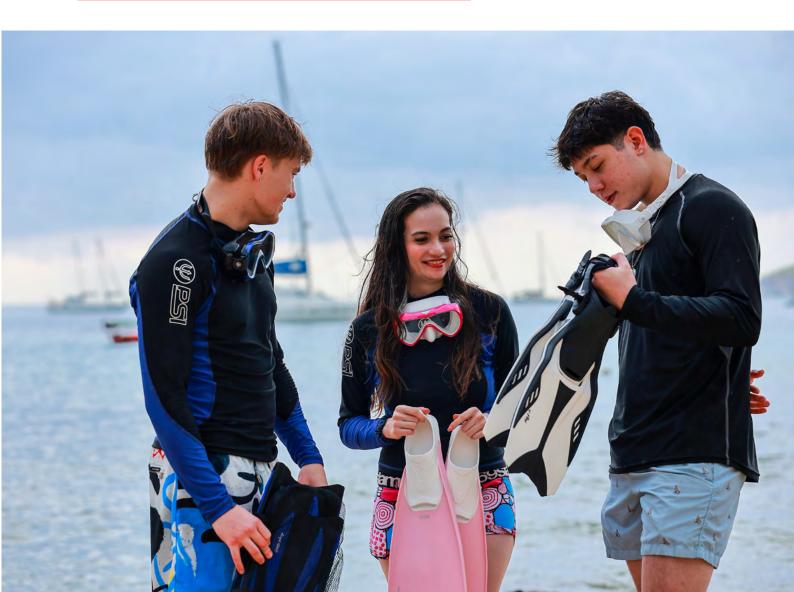

#### **Technical Features**

- Our new compact and performant open heel snorkelling or diving fins. Easy to adjust and no boot required. Come with neoprene pad for top comfort. You've got your goggles or mask, you've got your underwater camera, but you're not yet set – you still need your fins! Enjoy the ocean or reef getaway with your kids with these adjustable strapped snorkeling fins.
- The strap style snorkel fins adjust quickly to a range of sizes. The oversized rubber heel strap and convenient swivel buckles make these fins optimal for growing feet or sharing with friends and family.
- SMART DESIGN The flexible blade is comprised of two materials: a soft rubber center section and
  the main blade. The rubberized center suction cups water with each kick, allowing for maximized
  agility and minimized effort and fatigue while swimming.
- HEEL TO TOE COMFY With an oversized rubber heel strap, the neoprene pad and a comfortable blade design, you can enjoy an improved feel and reduced chafing. The soft foot pocket also eliminates the need for a neoprene boot.

# AQUALUNG RASH GUARD SLIM FIT BLACK

- Slim Fit Design: Precision-tailored for a sleek, comfortable fit that moves effortlessly with your body.
- Fabric Composition: Made from 80% polyester and 20% elastane for durability, vibrant colors, and quickdrying performance.
- SPF50+ UV Protection: Shields your skin from sunburn without compromising comfort.
- Enhanced Comfort: Enjoy a slightly raised neckline for added sun protection during surface activities and to prevent any discomfort from your buoyancy compensator during warm water dives. It also provides an extra layer of warmth when used as an undergarment.
- Eco-Friendly Construction: We're proud to use polyester sourced from 100% recycled bottles, aligning with our commitment to sustainability.
- Versatile Use: Our rashguards are designed to be worn solo or as a layer under your wetsuit, offering protection against both sun exposure and abrasions.
