OCEANIC RENTAL SETS

Oceanic Alpha 8 Regulator

The Oceanic Alpha 8 (SP-5) regulator offers smooth, reliable breathing performance at an excellent entry-level price. The efficient second stage delivers easy airflow, while the durable SP-5 piston first stage ensures dependable operation and simple maintenance. Nitrox compatible up to 40% and lightweight for travel, it's a trusted choice for recreational divers and dive centers.

Oceanic Ocean Sport BCD

The Oceanic OceanSport BCD is a durable jacket-style buoyancy compensator featuring a single backplate unit construction, built for reliability and heavy use. Made from tough 800D ballistic nylon, it offers stable buoyancy, an adjustable fit, and practical storage, making it ideal for dive schools, rental programs, and recreational divers.

Oceanic Alpha 8 Octopus

PSI Mini 2K Console

PSI Slimline Console

The PSI Mini 2K (compact) or Slimline Gauges are affordable and durable pressure gauges offering precise readings up to 400bar, with a clear and luminous easy-to-read display. An ideal instrument for dive operators.

Oceanic offers a Reliable, Robust, and Comfortable dive center school set, specially built for your rental lockers. Wetsuits and Gear Bags can be customized with your own logo.

TANKS & VALVES

WEIGHT BELT & BUCKLE

AL-SAFE Cylinder

Seamless 6061-T6 high strength aluminum, made to DOT-3AL and ISO 7866 certified standards

PSI K Valve

Made in Italy and compatible with Thermo parts, DIN/INT both come with safety burst disk

PSI Valve Pro

PSI Lead Weight 1.0 KG

Lead weights in 1kg size for threading onto weight belt

PSI Weight Belt + Buckle

Weight belt with metal buckle 3 slots, 1.4 or 1.8 meters Black

RENTAL GEAR

Affordable wetsuit 3mm made from DuraFlex Neoprene. It offers more comfort and a longer lasting in Rental environment.

PSI Colby Jumpsuit 3mm **PSI Colby Shorty 3mm**

PSI Adventure II Mask

A two-window affordable mask with tempered glass lenses and a silicone skirt for comfort.

PSI Vera Mask

Single-lens frameless mask with an ultra-clear HD lens, Extra soft silicone skirt for comfort, and a secure fit.

PSI Adventure II Snorkel

Silicone snorkel with dry top, purge valve, and flexible joint.

PSI Logbook

Keep your divers organized and promote your brand with our custom-printed logbooks.

PSI Racer Fins

Durable open-heel fin made from vulcanized rubber with replaceable spring straps for comfortable use with neoprene socks or dive boots.

PSI Runner Fins

Durable, lightweight and affordable full foot fins, perfect for warm water diving.

CREST CR1

Reliable and rental-friendly, with a clear display, multiple dive modes, Bluetooth connectivity through the Dive Story Pro app, and a user-replaceable battery.

Aqualung i300C(R)

Built rental-tough with simple two-button control, multiple modes, quick resets, Bluetooth connectivity, and a user-replaceable battery.

PSI Gear Bag

Affordable and Durable 90L bag with a reinforced bottom and edges, U-shaped zipper, and transparent side pocket for identification.

PSI Gear Bag - Mesh version

NARDI COMPRESSOR

Nardi Pacific P

PACIFIC P SERIES by NARDI Compressor

The Pacific P series is a range of compressors which offer fill rates from 160LPM up to 350LPM. They are highly efficient and are very robust.

Nardi Atlantic 100L

ATLANTIC SERIES 100 L/min by NARDI Compressor

Reliable, durable, and versatile, the Atlantic compressor has a fill rate of 100 L/min.

MOLECULAR SIEVE

13X Molecular Sieve is known for its potential to adsorb a wide range of impurities, such as carbon dioxide and hydrogen sulfide, making it ideal for environments with excessive contamination dangers.

ACTIVATED CARBON

An activated carbon filter (e.g., charcoal) filter removes aerosolized oils and hydrocarbons from the air stream to improve taste and smell.

SYNTHETIC OIL

Shell Corena S4 P 100 is an Advanced Synthetic ISO VG 100 grade Reciprocating (Piston) Air Compressor Oil.

Also available with optional automatic condensate drain & final pressure cut off switch, larger filter tower & cartridge.

ZEO (FDXi)

Designed For Depth

The pneumatically-balanced ZEO is an engineering marvel of precision, durability and comfort. Its durable chrome-plated marine brass metal valve delivers a phenomenal breathing experience, improves cold-water performance and helps recirculate moisture from exhalation to prevent dry mouth. The breathing adjustment gives the diver a wide range of control to precisely set airflow throughout the dive.

The ZEO comes standard with an in-line hose swivel, inhalation effort control, dynamic adjustment technology dive/pre-dive switch and a super comfortable orthodontic mouth piece featuring an inline ball swivel on the hose connection to eliminate the binding that can cause jaw fatigue.

The cold-forged, over-balanced diaphragm FDX-i 1st stage is environmentally sealed. The in-line design limits the pressure loss inherent in "L" type 1st stage designs making the FDX-i more efficient and lighter due to its compact form.

Valve Type	Demand
Adjustment(s) Adjust	A.V.S. (pre-dive) & Flow Adjust
Balancing System	Pneumatic
Mouthpiece	Orthodontic with tabs
Nitrox Compatibility	Standard to 40% (outside EU)
Weight (without hose)	7 oz (0.2 kg)
Adjustments	2.4 in (5.8 cm) x 3 in (7.6 cm) (oval shape)
Work of Breathing	0.86 Joules

FDX-i (1ST STAGE)

DELTA 5 (EDX)
Ready For Anything

The Delta 5 is the next step in a long line of remarkably reliable, durable and smoothly breathing regulators to carry that name. Sure, we've given it an updated look, but that's not all. Like the Delta's before it, the 5 comes standard with our Dynamic Adjustment Technology, dive/pre-dive controls and a super comfortable orthodontic mouthpiece. Unlike its predecessors, the Delta 5 has an all metal pneumatic valve, providing super smooth breathing performance in any condition. We have also added a heat exchanger, positioned on the hose connection to the 2nd stage, to further increase its already stellar cold water performance.

We've paired the Delta 5 with the eDX. This top-of-the-line, over-balanced diaphragm 1st stage is environmentally sealed and comes with 4 low-pressure and 2 high-pressure ports. It also comes equipped with a heat exchanger for added cold water performance.

DELTA 5 (SECOND STAGE)	Available in Black or White
Adjustments	Dive/pre-dive switch & Dynamic Adjustment Technology
Valve Type	Pneumatically balanced all-metal valve
Heat Exchanger	✓ (For enhanced cold-water performance)

PSI MAUI

SIMPLE, DURABLE, ECONOMICAL. It's the perfect go-anywhere regulator for warm water both new divers and recreational divers who like to keep their diving simple and fun.

PSI Maui First Stage

- Classic downstream piston
- Chrome plated brass body
- Low pressure ports: 4
- High pressure ports: 1
- Available in 3364psi/232bar INT configuration.
- Air flow administered at 2100 l/min
- Weight: INT 230 – 24.9oz/706g; /DIN 300 – 17.1oz/485g.

PSI Maui Second Stage

- Classic downstream valve
- Hypoallergenic silicone mouthpiece
- Left/right hose attachment
- Weight: 165g / 5.8oz
- Air flow at 200 bar: 1400 l/min
- Maximum low pressure: 14 bar / 203 PSI

Ref	Designation	Retail
RGP12500	PSI Maui, Yoke	9,150 THB

PSI MAUI OCTOPUS

The PSI Maui Octopus is easy to use and easy to see in virtually all water conditions. A great simple, robust and economic octopus for warm water.

Technical Features

- Classic downstream valve
- Hypoallergenic silicone mouthpiece
- Right/Left hose attachment
- Weight: 165g / 5.8oz
- Air flow at 200 bar: 1400 l/min
- Maximum low pressure: 14 bar / 203 PSI

RSP12500	PSI Maui Octopus	4,200 THB

TECLINE R1 REC1

Tecline Regulator R1/REC1

The Tecline R1 REC1 Set I is a complete and reliable regulator setup, ideal for recreational scuba divers who value durability, performance, and simplicity. Whether you are a new diver or an experienced one looking for a dependable set, this configuration delivers optimal breathing performance with minimal maintenance needs.

At the heart of the set is the Tecline R1 PRO piston first stage. Known for its robust construction and user-friendly design, the R1 PRO offers consistent performance in warm and moderate water temperatures. Its piston mechanism is easy to service, making it a practical choice for divers who want a no-fuss, reliable first stage.

The set includes two Tecline REC1 second stages—one as your primary and one as the octopus. These second stages are engineered to deliver smooth and natural breathing, even at depth. Their ergonomic design and lightweight body provide added comfort during long dives. The octopus comes in a high-visibility yellow color for added safety and ease of access during emergencies.

Also included is a 52 mm submersible pressure gauge (SPG), which gives you an accurate reading of your remaining tank pressure at a glance. This SPG is built with a clear, durable display that remains readable even in low visibility conditions.

The hose configuration features:

- LP 0.70m Proflex black hose (for the primary second stage)
- LP 0.90m Proflex yellow hose (for the octopus)
- HP 0.80m rubber black hose (for the SPG)

To complete the package, everything comes neatly packed in a durable Tecline carrying bag, making transport and storage easy and organized.

The R1 REC1 is a great choice for divers who want a trusted, high-performance regulator set with customization options and Tecline's proven quality.

R1 REC1 100% O2 SET

R1 REC1+OCTO+SPG SET I

TECLINE R2 / TEC1

Tecline R2/TEC1 Regulator

Four medium-pressure ports all mounted on a rotating turret. This results in optimal hose routing while eliminating sharp bends in the hose.

An optional 5th port is available for side mount or twin-cylinder set ups.

Can be converted from a right-handed hose configuration to a left-handed one. The process of changing the regulator to a left-handed configuration is both quick and simple. However this procedure must ONLY be performed by an TECLINE Authorized Service Technician.

Available in DIN configuration.

Braided flexi-hoses are now standard on all models. These hoses are lighter-weight, more flexible, and more durable.

First Stage:

- Turret style first stage
- Unique over-balanced, diaphragm design – as the diver descends, the over-balancing feature allows the medium-pressure gas in the hose to increase at a rate faster than ambient. This results in superior performance at depth.
- 2 HP ports and 4 MP ports on a rotating turret are angled for optimum hose routing
- An environmental dry system keeps water out of the main spring chamber thus preventing ice buildup and keeping silt and contamination out.

Second Stage

- The pneumatically balanced second stage results in smooth, easy breathing.
- The large venturi lever has a soft-touch rubber grip, which makes it easier to locate and use. The lever reduces the amount of grit ingress and therefore resists any possible friction giving a smooth operation.
- Easy-to-grip opening effort control knob keeps the diver in control.
- A silicone exhaust valve improves the breathing performance of the regulator.
- The Comfort mouthpiece virtually eliminates jaw fatigue.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.

R2 TEC1+OCTO

R2 TEC1+OCTO+SPG SET I

TECLINE R5 / TEC1

Tecline R5/TEC1 Regulator

Tecline R5 TEC1 with TEC1 octopus and bag for the recreational diving with a single cylinder in cold and warm waters. Lightweight, classic and universal, reliable and easy to service. Breathing parameters in accordance with EN250A.

Second stage TEC1:

- Lightweight, universal second degree.
- Classic design – reliable and easy to service.
- Breathing parameters in accordance with EN250A – confirmation of the highest quality and safe use even in the coldest waters.

TEC1 specification:

- Pneumatically balanced.
- Venturi effect control lever.
- Breathing resistance regulation.
- Aluminum outer ring.
- Additional heat exchanger for cold water.
- Weight: 250g
- Ergonomic mouthpiece.

R5 specification:

- Balanced membrane system.
- Dry chamber.
- Extra cold kit for cold water.
- Ports: 4x LP, 2x HP.
- Output of LP and HP ports facilitating configuration of double-cylinder sets.
- Max working pressure: 300 bar.
- Max flow rate at 20 mpa pressure: 3823 l / min.
- Pres. interstage: 9.0 bar.
- Material: sea bronze.
- Weight: 822 g.
- Works in configurations:
 - A single cylinder – very good.
 - Twinset – very good.
 - Sidemount – not recommended.

First stage R5:

- Advanced automat for demanding divers.
- Optimized port arrangement.
- Light breathing even in the most difficult conditions.
- Extraordinary breathing parameters exceeding the requirements of the latest EN250A standard for cold water vending machines.

R5 TEC1+OCTO+SPG SET I

TECLINE SIDEMOUNT REGULATOR R2/TEC1

TECLINE SIDEMOUNT REGULATOR SET R2/TEC1

Discover freedom with the Tecline Sidemount Regulator Set. Unleash versatility and performance designed for the modern diver seeking ultimate flexibility and control. This innovative system revolutionizes sidemount diving, offering unmatched comfort, reliability, and precision.

Sidemount Tecline regulator Key Features:

- **Durable Construction:** Made from corrosion-resistant materials for long-lasting reliability.
- **Ergonomic Design:** Swivel hose connections and comfortable mouthpieces reduce jaw fatigue.
- **Seamless Integration:** Compact and lightweight stages with flexible hose routing maximize mobility and minimize drag.
- **Versatility:** Perfect for exploring caves, wrecks, or coral reefs, the TECLINE Sidemount Set R2/TEC1 offers advanced engineering and user-friendly design for both novice and experienced divers. The Tecline Sidemount Regulator Set is CE approved EN250A sidemount kit specifically for this type of diving.

Why Choose the TECLINE Sidemount Regulator Set R2/TEC1?

- **Reliability:** Dependable performance for every dive.
- **Efficiency:** Easy installation and intuitive use.
- **Comfort:** Ergonomic features for extended diving sessions.
- **Versatility:** Ideal for various diving environments and styles.

Join the ranks of elite divers who trust Tecline for their diving needs. Experience the Tecline Sidemount Regulator Set and unlock a new level of performance, comfort, and reliability in sidemount diving

The TECLINE Sidemount regulator set consists of:

- 1st Stage R2 TEC x 2
- 2nd Stage TEC1 x 2
- SPG (52mm) x 2
- Hoses:
 - LP 1.93m Proflex Black
 - LP 0.65m Proflex Black
 - 2x HP 0.20m
 - Bolt Snap (88mm)
- Tecline Bag
- The Tecline Sidemount Regulator Set is CE approved EN250A sidemount kit specifically for this type of diving.

REF	DESIGNATION	RETAIL
TLSD10005-4	Sidemount Regulator Set R2/TEC1	49,990 THB

TECLINE SIDEMOUNT REGULATOR R2 TEC2

The TECLINE Sidemount Regulator Set R2 TEC1 is a complete, ready-to-dive system designed for sidemount and technical divers seeking reliability and flexibility. Built around two robust R2 TEC first stages, it delivers stable intermediate pressure and dependable performance in demanding environments.

Paired with two TEC2 second stages, the set ensures smooth, effortless breathing with precise control throughout the dive. The compact 52 mm SPGs provide clear and accurate pressure readings, perfectly suited for streamlined sidemount configurations.

The included hose package is optimized for clean routing and efficient gas management, featuring Proflex low-pressure hoses (1.93 m and 0.65 m) and two 0.20 m high-pressure hoses. An 88 mm bolt snap allows secure attachment, while the Tecline carry bag offers convenient storage and transport.

With customizable hose options, the R2 TEC1 set adapts to individual preferences, making it a versatile and dependable choice for various diving applications.

The TECLINE Sidemount regulator set consists of:

- 2x R2 TEC First Stage
- 2x TEC2 Second Stage
- 2x SPG Pressure Gauge 52 mm
- LP Hose 1.93 m Proflex (Black)*
- LP Hose 0.65 m Proflex (Black)*
- 2x HP Hose 0.20 m*
- 1x Bolt Snap 88 mm
- Tecline Oval Carry Bag

Key Highlights

- Ideal for sidemount configuration
- Durable and stable breathing performance
- Compact SPG for clear pressure reading
- Neat and efficient hose setup
- Packed in original Tecline bag

PHOTON PRO

DESIGNED FOR PROS

Engineered for serious divers who regularly dive locally, the Photon Pro provides higher lift capacity, rugged durability, and customizable fit. It's the go-to platform for cold-water diving, carrying more weight comfortably, and adapting to any dive conditions.

QUICK TANK SWAPPING

The TankTamer Tank Band makes tank changes between dives fast, and transitions between steel and aluminum cylinders effortless.

MODULARITY REIMAGINED

Designed to evolve with the diver, the Photon system allows you to add color kits, accessory pockets, and even customize weight systems, no more compromises.

OCEANIC PHOTON PRO MEN

If you dive locally, dive often, and need extra kit when conditions change, the Photon Pro Men's BCD is built to keep things calm and controlled. Its back-inflation bladder keeps you streamlined in the water, reducing drag while supporting a more horizontal and energy-efficient position.

Features & Benefits

- **Back-inflation wing design** for streamlined profile and improved hydrodynamics
- **Low-profile, travel-friendly construction** for easy packing and reduced bulk
- **Ergonomic harness with gender-specific fit** for enhanced comfort and support
- **A.P.S adjustable positioning system** for a customized fit
- **Quick TankTamer tank band** for fast and easy tank changes
- **Lightweight backplate design** improves balance and horizontal trim underwater
- **Modular component system** allows easy customization and upgrades
- **Quick-release weight system (QLR4)** for secure and simple weight management
- **Durable materials** including 420D nylon, welded seams, and corrosion-resistant hardware
- **High lift capacity with efficient inflator** for better buoyancy control and reliability

OCEANIC PHOTON PRO WOMEN

NEW
2026

The Oceanic Photon Pro Women's BCD is a feature-rich back-inflation BCD built for serious divers who want stability, comfort, and a truly personal fit. Its modular harness system means shoulder straps and waistbands can be easily and quickly adapted to your exposure suit or diving needs. Made with tough and durable materials, the Photon Pro can handle daily use and heavy diving needs. Whether you're a diver dialing in your trim for local dives or adding weight and accessories for colder conditions, the Photon Pro Women's BCD stays supportive and streamlined. With both trim and integrated weight pockets, optional add-ons, and a fit designed around women's ergonomics, it's a BCD that adapts as your diving develops.

Features & Benefits

- **Back-inflation wing design** for streamlined profile and improved hydrodynamics
- **Low-profile, travel-friendly construction** for easy packing and reduced bulk
- **Ergonomic harness with gender-specific fit** for enhanced comfort and support
- **A.P.S adjustable positioning system** for a customized fit
- **Quick TankTamer tank band** for fast and easy tank changes

OCEANIC PHOTON AIR MEN

The Photon Air is a compact, low-profile BCD built for streamlined rear-inflation buoyancy control with minimal drag and weight. Its innovative modular central frame delivers the durability and expandability you expect from Photon, allowing accessories to be added as your diving evolves. Ideal for travel or day-boat diving, Photon Air keeps you agile wherever you dive.

Features & Benefits

- **Back-inflation wing design** — Low bulk makes the BCD easier to fit into luggage; smooth profile enhances hydrodynamic.
- **Ergonomic harness and waist belt (Men's and Women's fit)** — Shoulder straps contoured for a gender-specific fit, with comfort lumbar support for long dives.
- **Minimalist "Quick Dry" harness** — Streamlined and breathable shoulders, back pad, and hip pads make the harness low-bulk and quick drying mesh.
- **Travel-optimized weight system** — Lightweight 5 lb quick-release weight pockets + 5 lb trimweight pouches offer fine-tuning of your buoyancy while keeping overall pack weight down.
- **Integrated modular attachment system** — Easily detachable and adjustable.
- **Components** such as shoulders and weight pockets are adaptable to the shared rigid Photon frame — no need to buy totally separate gear.
- **Platform-free designed for accessorizing** — Customize your perfect BCD with the Oceanic Photon accessories such as the Dive Housing Holster, Utility Pocket, TankTamer stainless quick adjust tank band, and a wide range of color kits to match your style.
- **Light but durable materials** — Use of high-strength nylon 420D fabric for high UV and abrasion resistance. Molded nylon shoulder and hip D-rings and molded backplate — optimized for strength without unnecessary weight.
- **Efficient inflator design** — A compact, low-profile, no-fuss inflator with intuitive controls ensures easy inflation/deflation without bulk. Made to be replaced when service is needed.

ACCESSORIES & ADD-ONS

Here are popular add-ons designed specifically for the Photon BC to complement and leverage its modular design:

- **Utility Pocket** — A low-volume pocket that mounts to any Photon BC, for storing small items (slate, spare parts, surface whistle).
- **Dive Housing Holster** — Detachable pouch that supports the Oceanic Dive Housing in a way that is easily removeable and without adding significant weight.
- **Color Kits** — Accent kits that can be added to the Photon Air or Pro, in 5 available color options: Aqua, Black, Blue, Pink, and White. Includes shoulder epaulette, hose retainers, webbing retainers, zipper pulls, and matching wing bungee to make the Photon visually standout.
- **TankTamer Quick Release tank band** — Upgraded quick release tank band which is machined from stainless steel for durability.

OCEANIC OCEANPRO

An economical jacket for the diver who wants to keep it simple, the OceanPro BC features the same quality workmanship, comfort and fit that you expect from Oceanic.

Features & Benefits

QLR4 Quick Lock & Release Weight System

The OceanPro comes with Oceanic's patented QLR4 Weight Integration System. The "positive-lock" design keeps your weights secure during the dive, yet allows quick, effortless release when needed.

Reliant Integrated Inflator

Oceanic's ergonomically designed inflator offers smooth and precise control in any position. Fine-tune your buoyancy with a gentle press or fully inflate quickly when needed. A large exhaust valve ensures rapid air release and superior control during ascents.

Adjustable Comfort Fit

Featuring an adjustable cummerbund with up to 8 inches of flexibility, the OceanPro ensures a custom fit for every diver. The padded backpack provides excellent comfort both above and below the surface without compromising stability.

Spacious Storage

Two large main pockets with Velcro® closures provide ample room for essentials like your light, mask, or diving slates.

Technical Specifications

- Type: Jacket
- Material: Fadeless 1000 Denier Ballistic Nylon
- Weight Integration: Optional QLR4 System (20 lbs total)
- Trim Weight: 10 lbs
- Main Pockets: 2 large zippered pockets
- Backpack: Padded with integrated carrying handle and molded tank cradle
- Plastic D-Rings: 8
- Sternum Strap: Optional
- Carrying Handle: Yes

OCEANIC OCEANSPORT

NEW
2026

The Oceansport is ready for any dive, whether you are newly certified or a dive operator. Specifically designed to be the benchmark for rental and training operations which demand the ultimate in value and durability. The design and materials are based on our "bulletproof" Oceanpro BC, and feature a mixture of fade and abrasion resistant nylons for use in extended UV and chlorine environments.

Features & Benefits

Ballistic Nylon – Built for Heavy Use

Designed for dive centers and training environments, the OceanSport uses high-quality Ballistic nylon that resists fading, chlorine, and abrasion — keeping its professional look and feel season after season.

Comfortable Fit for All Divers

Available in a wide range of sizes, with adjustable cummerbund, waist, and chest straps for a secure and personalized fit.

Practical Storage and Streamlined Design

Two large Velcro® side pockets provide space for accessories like a light or backup mask. Integrated backpack with handle makes transportation easy between dives.

Streamlined Octo and Instrument Pockets

The OceanPro includes dedicated pockets for your octopus and gauges, helping you keep your setup clean, streamlined, and tangle-free — a favorite feature among dive instructors and professionals.

Effortless Buoyancy and Stability

The classic jacket design offers stable surface flotation and easy trim underwater, ideal for beginner and intermediate divers.

Technical Specifications

- Type: Jacket BCD
- Material: The Oceansport abrasion points are covered in Oceanics fadeless 800 denier ballistic nylon – tough stuff that will hold up to years of extreme diving and keep that "new look" longer
- Pockets: 2 Velcro® side pockets
- Backpack: Integrated with carrying handle
- Adjustment: Cummerbund, waist, and chest straps
- Ideal for: Rental use, training, and recreational diving

Lift capacity: XXS 17 lb (7 kg); XS 18 lb (8 kg); SM 26 lb (12kg); MD 31 lb (14 kg); LG 38 lb (17 kg); XL 44 lb (20 kg); XXL 52 lb (24 kg)

Hollis ST ELITE TRAVEL SYSTEM

Similar to the baseline ST, the Hollis ST Elite brings together our most popular single tank components into a single system. However, instead of the solo harness, we added our luxurious and adjustable Elite 2 harness, yielding a result similar to what you'd expect from a full-featured BCD.

So if you're coming from the recreational world of single tank diving using a traditional BCD, this gives you that same harness style, but on a backplate for added stability. The ST Elite System also gives you a ton of options to customize depending on your diving style, in case it changes over time.

For warm water and travel destinations, we have the ST Elite Travel System, which includes the ultra streamlined ST22 wing, Aluminum backplate 2.0, Delrin cam bands and Backplate backpad 2.0.

And those diving in colder waters can choose the standard ST Elite, which includes a go anywhere ST35 wing, Stainless backplate 2.0, stainless cam bands and a backplate backpad 2.0.

Features & Benefits

Details

- Unites our most popular components into a single system
- Elite 2 harness provides comfort of a full-featured BCD
- Available in both steel and aluminum for versatility
- Aluminum Backplate 2.0 is light and travel-friendly
- Steel/aluminum Backplate 2.0 offers stability
- Versatile platform for tons of customization
- Delrin cam bands keep your kit secure

Wing Specs

- ST22 – 22lbs lift / 10 kg
- ST35 – 35lbs lift / 16 kg
- Welded flange and one piece retainer for servicing without the need for tools
- HD Laminated 1680D Cordura outer shell
- 420 nylon internal bladder
- Elbow offset to avoid tank valve/regulator interference and streamlined hose routing
- Lower left pull relief valve
- Cam band slots & tank cradle built in

Backplate 2.0

STAINLESS BACKPLATE 2.0

- AISI 304 Stainless
- 4mm thickness
- Sandblasted finish
- Electropolished & chemically passivated
- Laser cut & CNC bent
- 6.5 lbs / 3 kg

ALUMINUM BACKPLATE 2.0

- EN AW 6061 aluminum
- 3mm thickness
- Hard Anodized Marine Black
- Laser cut & CNC bent
- 1.5 lbs / 1 kg

Hollis SIDEMOUNT KATANA 2

NEW
2026

The Hollis Sidemount system Katana 2 is designed for sidemount divers who demand comfort, precision, and full customization. Developed in collaboration with Edd Sorenson from Cave Adventurers, it introduces the innovative QFS (Quick Fit System) that allows quick sizing adjustments for a perfect one-size-fits-all fit. Straight out of the box, divers can easily configure the harness to match their preferred setup without any permanent modifications.

Its streamlined wing design provides 40 lbs of lift while maintaining a low-profile shape that eliminates the "turtle shell effect," reducing drag and improving underwater movement. With a 20 lb weight capacity, the Katana 2 is ideal for cold-water diving, thick undergarments, or drysuit use. Divers can also choose between single or dual bladder configurations, making it suitable for both recreational sidemount diving and advanced technical missions.

The Katana 2 is also the first sidemount harness designed with CCR (Closed Circuit Rebreather) compatibility, featuring integrated mounting points for popular systems such as the KISS Sidewinder. Easy-to-access attachment points, an innovative top dump for precise gas venting, and the option to add the SMS Regulator Kit all enhance convenience and performance.

Crafted with premium Hollis durability and backed by a 2-year warranty, the SMS Katana 2 is built for caves, ocean exploration, and every technical environment.

Features & Benefits

- QFS Quick Fit System – true one-size-fits-all adjustment
- Configurable in "H" or "Y" harness styles
- Streamlined wing with 40 lbs lift capacity
- 20 lbs integrated weight capacity
- Optional Dual Bladder for advanced technical diving
- Integrated CCR sidemount mount (supports KISS Sidewinder)
- Top dump for easy gas venting without breaking trim
- Easy-reach accessory attachment points
- Built for both recreational & technical sidemount setups
- Weight: 8.0 lbs
- 2-year Hollis standard warranty

TECLINE PEANUT 11 13 16 TRAVEL SET COMFORT

To date, the wing under one cylinder Tecline "Peanut 16" – is the first and only asymmetrical wing in the world. Tecline Peanut 16 Asymmetrical Wing (16L capacity) helps to achieve a more stable, comfortable position

Tecline Peanut asymmetric is a series of bags with unique features:

- Extremely large capacity of 16 L at a very small outer contour.
- Very low weight of 890g.
- Lift capacity: 16kg/35lbs
- Outer layer is made of extremely soft Cordura 1000D.
- Inner bladder made of PU210.
- The asymmetric shape of the outlet for the inflator ensures easy dumping of gases.
- 3D construction enhances safety by the high position of the diver on the surface.
- The shape of the wing guarantees perfect management of the hoses coming out from the regulators In complete:
- "Peanut 16", Alu BP, backplate soft pad "H", soft back pad with buoy pocket, 2 weight pockets, 2 tank belts.

TECLINE SIDEMOUNT 16 BCD

The TECLINE Sidemount BCD Avenger Side16 is the cornerstone of the sidemount diving system, offering streamlined comfort and stability in the water. Designed to accommodate multiple tanks along the diver's sides, sidemount BCDs provide optimal buoyancy control and trim, allowing divers to maintain a horizontal position effortlessly while conserving energy and air.

Ideal for cave and recreational diving. CERTIFICATE CE EN1809 CE1463

The TECLINE Sidemount BCD Kit is one of the easiest on the market to configure and adjust the harness. The harness may be separately adjustable shoulder belts and / or belt ventral with easy adjustment that makes the best set of learning. Wing and harness form a single integrated set.

Tecline Sidemount 16 Avenger Set Features:

- Buoyancy: 16kg
- DIR harness that preserves the purity
- The possibility of adding up to 19 kg of ballast
- 2 sets of additional ballast pockets available in 2 sizes (2 kg and 4.5 kg)
- 4 integrated ballast pockets (10kg total), which distributes the load in an ideal position on the back of the diver. These pockets are positioned slightly outwardly and below to provide a better finish and streamlining
- Pockets ballast abdominal belt will help divers dry suit by placing extra ballast towards the lower part of the body
- Pressure relief valve in a strategic and protected place on the lower back of the bag for easy emptying gas in the horizontal or upside down
- The low profile of the bag reduces the resistance and the risk of being stuck
- Inflator can be placed to the left and right
- Detachable beaver tail for attaching heavier steel cylinders and accessories

M1 FRAMELESS

The Hollis M1 Frameless Mask is built for divers who want outstanding clarity underwater. Its Ultra-Clear low-iron glass lens allows more light through, reduces the green tint found in standard glass, and delivers a brighter, clearer view with minimal distortion

M1 FRAMELESS

The Hollis M1 Mask is built for divers who put visibility first. Designed to raise the bar for optical performance, the M1 combines ultra-clear glass with a frameless, low-volume design to deliver crisp, distortion-free vision underwater. Every detail is focused on giving divers a clearer, more natural view, whether exploring reefs, navigating deeper environments, or diving in lower light conditions.

At the heart of the M1 is its ultra-clear lens, **made from low-iron glass** prized for its superior optical quality and clean appearance. By allowing higher light transmittance and reducing the green tint commonly found in standard glass, the M1 enhances color accuracy, brightness, and overall underwater visibility. The result is a lens that feels sharper, clearer, and more true to life in a wide range of dive conditions.

Its frameless construction and 100% pure silicone skirt create a clean, lightweight profile with a secure, comfortable seal. Combined with its low-volume design and wide field of vision, the Hollis M1 Mask delivers a streamlined fit without compromising visual performance.

Modern, technical, and built around clarity, the Hollis M1 Mask is a strong choice for divers who want premium optics in a sleek, minimalist design.

Technical Features

- **Ultra-Clear Lens** for superior optical quality and distortion-free underwater vision
- **Low-Iron Glass Construction** for higher light transmittance and reduced green tint
- **Improved Color & Low-Light Visibility** for a brighter, more natural underwater view
- **Frameless Design** for a clean, lightweight, and streamlined profile
- **100% Pure Silicone Skirt** for a soft, secure, and comfortable seal
- **Wide Vision Design** for an open and expansive field of view
- **Low-Volume Profile** for a compact fit and easier clearing

MSHL4500.09	Hollis M-1 Frameless Clear	3,750 THB

TECLINE FRAMELESS SUPER VIEW

The Tecline Frameless Super View mask is a must-have for divers of all levels. Offering the widest field of view among frameless masks, it conforms comfortably to the face and requires minimal gas to clear water. Its hydrodynamic shape ensures efficient drainage of exhaled air, keeping the diver's view unobstructed.

Designed for technical diving and other underwater applications, this mask features a frameless construction and small volume design. Its durable metal fastening of mask strips ensures a secure fit, while the quick and easy mask strap adjustment feature provides customized comfort for every diver.

Key features include:

- Exceptional 170-degree view thanks to a short distance between glass and eyes
- Enlarged angle of view downwards
- Low volume
- Metal strap buckles
- Ultra-lightweight
- Soft, black silicone frameless mask
- Perfect adherence to the face

TLMST05063	Tecline Frameless Super View mask, Blue	3,950 THB

TECLINE FRAMELESS CLASSIC

The Tecline Frameless Classic Mask features a tested and proven frameless design that delivers very low internal volume, a wide unobstructed field of view, and a compact profile. By positioning the lens closer to the eyes, it enhances peripheral vision, helping you stay more aware of your surroundings and your dive team.

Frameless masks are widely preferred by technical divers because of their low volume and compact size. This makes the Tecline Classic an excellent choice as both a primary mask and a reliable backup mask, especially for divers who carry spare equipment during advanced or technical dives.

The matt black silicone skirt provides a secure and comfortable seal against the face. Its smooth inner finish ensures comfort, while the non-reflective outer surface is favored by many technical divers for reducing glare and distractions underwater.

The single tempered glass lens exceeds American National Standard Z86.11-1985 impact requirements, ensuring durability and clarity in demanding dive conditions.

Instead of a traditional silicone strap, this mask features a durable neoprene strap with Velcro closure. This system allows quick and easy adjustment while remaining secure and comfortable throughout the dive.

Each mask comes with a sturdy protective plastic box for safe storage and transport.

- Exceptional 170-degree view thanks to a short distance between glass and eyes
- Enlarged angle of view downwards
- Low volume
- Metal strap buckles
- Ultra-lightweight
- Soft, black silicone frameless mask
- Perfect adherence to the face

OCEANIC CYANEA

The Oceanic Cyanea Mask is designed for divers and snorkelers who want a more open, comfortable, and modern underwater experience. Combining an oversized lens with sleek Micro-Frame construction, the Cyanea delivers a wider field of view and enhanced peripheral vision, helping you feel more immersed on every dive.

Its Optical Glass lens provides bright, sharp clarity underwater, while the ultra-clear liquid silicone skirt with double-feathered edges and stability ridges creates a soft, secure seal for lasting comfort. With its blend of visibility, comfort, and refined design, the Cyanea is a great choice for anyone looking for a premium mask that feels as good as it performs.

- Oversized lens with Micro-Frame construction for a wider, more open field of view
- Optical Glass lens for bright, sharp underwater clarity
- Wide field of vision for enhanced peripheral awareness
- Ultra-clear liquid silicone skirt for a soft, secure seal
- Double-feathered edge skirt with stability ridges for added comfort and support
- Elastic strap system for secure fit, comfort, and easy wear
- Stylish, modern design for divers and snorkelers who want comfort and visibility

UV & Chlorine Resistant Strap

- The Oceanic Cyanea features a ski-goggle-style elastic strap built for secure comfort, quick adjustment, and long-term durability.

OCEANIC SHADOW FRAMELESS

The Oceanic Shadow Mask is built for divers seeking sleek, low-volume performance in a minimalist design. Its frameless construction bonds a 100% liquid silicone skirt directly to the tempered glass lens, reducing bulk while delivering a wide, uninterrupted field of view. The low internal volume makes clearing and equalizing quick and effortless, while the flexible build allows the mask to fold flat for easy travel. Swiveling quick-adjust buckles ensure a secure, customized fit, and the included neoprene strap enhances comfort. Compact and efficient, the Shadow Mask is ideal for divers who value streamlined performance and simplicity.

- Frameless Single-Lens Construction for a wide, uninterrupted field of view with reduced bulk
- 100% Liquid Silicone Skirt bonded directly to the lens for a soft, secure seal
- Extremely Low-Volume Design for easier clearing, equalizing, and a close underwater profile
- Fold-Flat Architecture for compact packing and travel convenience
- Swiveling Quick-Adjust Buckles for secure, efficient fit adjustment
- Neoprene Mask Strap Included for added comfort and smoother wear
- Lightweight, Streamlined Profile for a clean and hydrodynamic feel underwater
- Ideal for Hunters and Photographers who benefit from a compact, focused design

OCEANIC MINI SHADOW FRAMELESS

NEW
2026

The Oceanic Shadow Mini Frameless Mask delivers the same sleek performance as the original Shadow in a size tailored for smaller facial profiles. Its frameless design combines 100% liquid silicone with a tempered glass lens, creating a lightweight, ultra-low-volume mask with a wide, unobstructed view. Easy to clear and exceptionally comfortable, it folds flat for convenient travel. Ideal for hunters, photographers, and everyday divers seeking a compact fit. For a standard fit, it's also available in the original Oceanic Shadow version.

- Frameless single-lens construction for a wide, uninterrupted field of view
- 100% liquid silicone skirt bonded directly to the lens for a soft, secure seal
- Extremely low-volume design for easier clearing and equalizing
- Fold-flat architecture for compact packing and travel convenience
- Swiveling quick-adjust buckles for secure, efficient fit adjustment
- Neoprene mask strap included for added comfort and smoother wear
- Lightweight, streamlined profile for reduced bulk underwater
- Ideal for hunters, photographers, and divers who prefer a smaller fit

PSI ICON

Style & performance, the PSI Icon mask is the ideal twin-lens mask for skin and scuba divers.

Equipped with clear HD lenses and a hi-grade silicone skirt designed for increased comfort. The Icon mask offers low-volume and optimized inclination angle that improve the field of view.

The skirt's all-in-one design ensures firm but gentle contact with the face. Pulling on the strap keeps a tight yet gentle seal leaving fewer impressions on your skin.

Low Volume – Reduced inner volume of the mask promotes a wider vertical and horizontal field of view.

The release buckle and fine pinch strap adjustability make it easy to find the most comfortable fit even when wearing thicker gloves. Can be adjusted using only one hand for better flow.

OCEANIC ARID

The ARID snorkel is engineered to deliver exceptional dryness and comfort, even in choppy surface conditions. Its advanced dry-top deflector effectively blocks water entry from waves and splashes, keeping breathing smooth and uninterrupted. The oversized purge valve allows for quick and effortless clearing, while the replaceable 100% liquid silicone mouthpiece ensures a soft, secure fit for extended use. Durable and dependable, the ARID is ideal for snorkelers who demand maximum performance and convenience.

- Advanced dry-top deflector minimizes water entry
- Oversized purge valve for fast, easy clearing
- Replaceable 100% liquid silicone mouthpiece
- Comfortable, secure fit for long sessions
- Reliable performance in waves and wind

PSI NAUTILUS

The PSI Prodrive Nautilus Foldable snorkel rolls up and can be carried in a BC pocket or hung from a D-ring. The snorkel deploys in a snap, making it the most travel-friendly snorkel ever.

You know you're supposed to have one, but most scuba divers find a heavy, rigid plastic snorkel to be a drag on diving comfort. Therefore the PSI Prodrive Nautilus Snorkel is the solution.

This product is designed to be carried rolled up in your buoyancy vest pocket and only removed when required.

- Design for BCD pocket
- Easily snaps to its original shape when unrolled
- Food grade silicone made, safe to use.
- Different colors. Easy to match with your diving masks or fins.

PSI SHARKY JUNIOR

- Easy Breathability : Experience effortless breathing underwater with this dry snorkel. Its design ensures a comfortable fit and easy breathing, making it ideal for both beginners and experienced divers.
- Versatile Use : Whether you're snorkeling, scuba diving, or free diving, this snorkel is perfect for all your water-related activities. It's a must-have accessory for any aquatic enthusiast.
- Top Dry Valve : The snorkel features a top dry valve that prevents water from entering the tube, ensuring clear visibility and uninterrupted breathing even in turbulent water conditions.
- Suitable for Kids : With its user-friendly design and safety features, this snorkel is also suitable for kids. It's a fun and safe way for children to explore the underwater world.
- High-Quality Material : This snorkel is crafted from high-quality materials, guaranteeing durability and longevity. It's a reliable choice for anyone looking for a reliable and long-lasting snorkel.
- Compact Design : Its compact design makes it easy to carry and store. Whether you're heading to the beach or going on a diving trip, this snorkel is a compact addition to your gear

LIGHT JET

If you are looking for a pair of fins that combine recreational lightness and technical functionality, look no further than the Tecline LightJet fins. The Tecline LightJet fins are made of thermoplastic vulcanisate (TPV), a new, flexible material that is also 100% recyclable. They feature an ergonomic open heel with stainless steel springs for comfortable donning, using and doffing. The blade has a hole for easy hanging and storage, and a line of additional holes along the blade for improved water flow and performance.

TECLINE LIGHTJET FINS

Try the Tecline Light Jet Fins and discover the ease and comfort of traveling with lightweight fins, weighing only 0.8kg-1.2kg, yet providing high performance.

The Tecline Light Jet fins are available in blue, white and black, and in sizes S/M, L, XL. Whether you are flutter kicking, frog kicking, back kicking or helicopter turning, the Tecline Lightjet fins will give you the power and manoeuvrability you need.

Specifications:

- **Material:** Thermoplastic Vulcanisate TPV (new, flexible material with optimal properties for recreational fins, produced from recycled materials, 100% recyclable)
- **Mounting system:** Stainless steel springs
- Ergonomic shape of the boots (open heel)
- Holes for easy hanging (for storage, transport, or drying)
- Weight of one fin with springs: 0.8kg – 1.1kg (depending on the size)
- **Available sizes:** S/M, L, XL

OCEANIC MANTA RAY FINS

COMING
Soon 2026

Manta Ray Fins - Inspired by Nature

Inspired by the graceful movement of manta rays, the Manta Ray Fins are engineered to mimic the natural biomechanics of the ocean's most efficient swimmers. Built with advanced techno-polymer materials as strong as bone, these fins deliver exceptional power, speed, and control without adding unnecessary weight. The innovative Power-X System enhances propulsion by storing and releasing energy through each kick cycle, while the integrated Power Channel directs water flow for maximum thrust. Lightweight, durable, and highly responsive, Manta Ray Fins provide a smooth and efficient diving experience for all skill levels.

Key Features

- Techno-polymer blade for superior strength and lightweight performance
- Power-X System enhances propulsion through energy transfer
- Power Channel improves water flow and thrust
- Biomimetic design inspired by natural swimming motion
- Durable construction for long-lasting reliability
- Efficient, smooth kicking with reduced fatigue

OCEANIC ACCEL FINS

NEW
2026

If you favor power over frills, you'll love the Accel. Compact and responsive, its clean lines and efficient shape make it an excellent all-around fin.

Unique, high-stretch heel straps are effortless to slip on and off and dramatically reduce the bulk and drag associated with typical open heel fins. The angled, compact blade has excellent water flow characteristics and also allows divers to swim efficiently with multiple kicking styles, from scissor to frog to sculling. The blade's center channel, along with pronounced side rails, also helps minimize "side spill," directing water behind the diver for maximum thrust.

- Unique heel strap design is effortless to slip on and off
- Design offers excellent water flow characteristics
- Less than 3 lbs per pair
- Maximum length (size XL-XXL) only 21 inches
- Available in bright, dynamic colors!
- 6 strap color kits also available

OCEANIC VIPER 2 FIN OPEN HEEL

COMING
Soon 2026

Viper 2 Fins – Open Heel Performance & Comfort

The Viper 2 Open Heel Fins are built to power every underwater adventure with a perfect balance of performance, comfort, and value. Designed with a precision blend of hydrodynamics and advanced materials, these fins deliver efficient propulsion with minimal effort. Engineered channels and side rails guide water flow cleanly off the blade tip, preventing energy loss and maximizing thrust. The oversized blade and Power Thrust Channel enhance speed and efficiency, while power vents reduce strain during each kick. Lightweight and travel-friendly, the Viper 2 is ideal for divers and snorkelers of all skill levels.

- Precision hydrodynamic design for comfort, efficiency, and performance
- Flexible Power Thrust Channel increases propulsion
- Engineered side rails prevent water spill for maximum thrust
- Power vents reduce leg strain and improve flow
- Oversized blade for stronger propulsion
- Lightweight construction for easy travel
- Streamlined foot pocket fits a wide range of boots
- Open heel design with quick-release adjustable buckles
- Suitable for all diving and snorkeling skill levels

OCEANIC VIPER 2 FIN FULL FOOT

COMING
Soon 2026

So Fast. So Responsive!

Precision blend of hydrodynamics and materials technology for ultimate comfort, efficiency and performance. The engineered channels and side rails direct water flow off the tips of the fin without allowing water to “spill” from the sides of the blade for uncompromising power and efficiency.

- Ideal for all diving and snorkeling skill levels
- Flexible Power Thrust Channel directs water off the tip of the blade for improved power and efficiency
- Power Vents reduce stress while accelerating water over the blade
- Oversized blade produces increased thrust and propulsion
- Generous yet streamlined foot pocket fits a wide range of boot styles while significantly reducing drag
- Extremely lightweight for increased performance and ease of travel

PSI APNEA FREEDIVING FINs

The PSI Apnea Freediving Fins are built for divers who want to maximize efficiency and comfort under water. With long, flexible blades and a secure full-foot design, they provide powerful propulsion while reducing fatigue, making them ideal for free diving. Lightweight yet durable, these fins are crafted from high-toughness Polypropylene (PP) and Thermoplastic Rubber (TPR), ensuring flexibility, resilience, and performance in all water conditions.

Specifications:

- 70cm Polypropylene (PP) Long Blade – Designed for strong thrust and efficient movement during freediving and apnea fishing.
- Softer Blade Structure – Adapts well to cold water where materials stiffen, maintaining flexibility.
- Full Foot Pocket – Thermoplastic rubber pocket with dual density for a snug and comfortable fit.
- Non-Slip Rubber Bottom – Provides reliable grip on wet, rocky, or slippery surfaces.
- Soft & Flexible Performance – Boosts pumping speed by up to 30% for energy-saving kicks.
- Interchangeable Blades – Easy to replace with long blades or carbon blades for versatile use.
- Concave Webbed Tail – Epoxy-coated for durability and scratch resistance.
- Portable Straddle Bag – Lightweight carry solution, perfect for travel.
- Durable Accessories – High-quality parts included, resistant to wear and damage.
- PP + TPR Material Construction – Ensures super flexibility (up to 90° bend) without breaking.
- Travel-Ready Bags – Comes with both a lightweight straddle bag and a mesh bag for easy packing, storage, and transport.

PSI SPRINTER FINs

The new PSI Sprinter diving fin exceeds the performance of the traditional model thanks to the use of combined dual materials that optimize efficiency. The Sprinter offers great responsiveness and thrusting power with an attractive look.

New Spring Strap is provided standard. Proven Channel Thrust technology makes the fin versatile and ideal in all diving conditions. The stabilizers improve stability, eliminating ankle twisting phenomena. The anatomical foot pocket conveys more power to the blade

- The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin
- Equipped with a new spring strap and a heel pad for quick and easy donning and doffing.
- The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling
- Quick-release buckles

PSI RACER 2 OPEN HEEL FINS

Performance, Comfort, and Power — Perfectly Balanced.

The PSI Racer 2 is a compact yet powerful open heel fin designed for divers who demand efficiency and comfort in every kick. With a design inspired by modern travel fins, the Racer 2 delivers good propulsion and control whether you're exploring tropical reefs.

- Streamlined open heel design for maximum versatility
- Dual-material blade construction for optimal power and comfort
- Spring heel straps with ergonomic heel pad for easy use
- Compact and lightweight – perfect for travel
- Foot size to be use with booties (A size down from your current foot size will also work with a 3mm sock)

PSI RUNNER

Engineered for warm-water divers and advanced snorkelers, the PSI Runner fins are the perfect blend of durability, performance, and affordability. Tested under extreme conditions, these fins are ideal for intensive use in diving centers or for divers seeking unmatched reliability on their underwater adventures.

- Ergonomic Foot Pocket: Crafted with reinforced soft materials for a snug, comfortable fit. Designed for barefoot use or with diving socks.
- Rugged Construction: Made from strong, elastic techno polymers to ensure durability and long-term performance.
- Enhanced Propulsion: The channel structure optimizes water flow along the blade, offering exceptional thrust with minimal effort.
- Side Wings for Stability: Reinforced side ribs improve swimming efficiency and control.
- Anti-Slip Design: Rubber pads on the sole provide stability on slippery surfaces.
- Comfort for Long Dives: The foot pocket and extended sole reduce fatigue, letting you focus on the underwater world.

BARE REVEL FULL WETSUIT 3/2MM

BARE Revel Full Wetsuit 3/2mm – Comfort, Flexibility & Everyday Performance

The BARE Revel Full Wetsuit 3/2mm is designed for divers and watersport enthusiasts seeking comfort, flexibility, and durability in one versatile suit. Built with a high-stretch neoprene blend and anatomically correct 3D patterning, it delivers a natural fit and unrestricted movement in and out of the water. User-friendly features like a low-profile collar, smooth inner lining, and heavy-duty back zipper enhance comfort and convenience. Durable reinforcements and eco-conscious packaging make the Revel a reliable and responsible choice for all your aquatic adventures.

- High-stretch neoprene blend for superior flexibility and mobility
- Anatomically correct 3D patterning for a natural, contoured fit
- Smooth inner lining for added comfort and reduced chafing
- Low-profile collar with Velcro tab and suit saver
- Armor-Flex knee pads for durability in high-wear areas
- Extra-long heavy-duty back zipper for easy entry and exit
- Lightweight, multi-sport design for diving and watersports
- Includes reusable hanger and eco-friendly packaging

BARE EXOWEAR JACKET & PANTS MEN'S

BARE Exowear Jacket & Pants Men's – Complete Thermal Protection System

The BARE Exowear Jacket and Pants Men's are designed to work together as a complete exposure protection system, delivering superior warmth, flexibility, and all-weather performance. Featuring OMNIRED™ Infrared Technology, both pieces reflect body heat back to you for enhanced thermal retention without added bulk. The advanced 3-layer fabric provides water-repellent, windproof, and breathable protection, while quick-drying, anti-microbial properties ensure lasting comfort. With 4-way stretch for unrestricted movement and a lightweight, neutrally buoyant design, this versatile combination is ideal for diving, watersports, and outdoor adventures in cooler conditions.

- Complete system: jacket and pants for full-body thermal protection
- OMNIRED™ Infrared Technology enhances warmth without bulk
- 3-layer fabric: water-repellent, windproof, and breathable
- Moisture-wicking and quick-drying for all-day comfort
- Anti-microbial treatment reduces odor and maintains freshness
- 4-way stretch fabric for maximum mobility and flexibility
- Jacket with front zipper for easy wear and ventilation control
- Pants with high-cut waistband and foot stirrups for secure fit
- Lightweight and neutrally buoyant for water performance
- Ideal for layering or standalone use in various conditions

BARE EXOWEAR JACKET & PANTS WOMEN'S

BARE Exowear Jacket & Pants Women's – Complete Thermal Protection System

The BARE Exowear Jacket and Pants Women's are designed to work seamlessly together, delivering full-body warmth, protection, and flexibility for watersports and outdoor adventures. Featuring OMNIRED™ Infrared Technology, this system converts body heat into infrared energy and reflects it back to enhance warmth without added bulk. The advanced 3-layer fabric is water-repellent, windproof, and breathable, ensuring comfort in changing conditions. With moisture-wicking, quick-drying, and anti-microbial properties, plus 4-way stretch for unrestricted movement, this lightweight, neutrally buoyant combination is perfect for diving, paddling, and beyond.

- Complete system: jacket and pants for full-body thermal protection
- OMNIRED™ Infrared Technology improves heat retention and circulation
- 3-layer fabric: water-repellent, windproof, and breathable
- Moisture-wicking and quick-drying for all-day comfort
- Anti-microbial treatment reduces odor and maintains freshness
- 4-way stretch fabric for maximum flexibility and mobility
- Jacket with front zipper for easy wear and ventilation control
- Pants with high-cut waistband for warmth and secure fit
- Foot stirrups keep pants in place during activity
- Lightweight and neutrally buoyant for optimal water performance

BARE S-FLEX 5MM

5mm BARE S-Flex Boots – Warmth, Durability & Secure Traction

The 5mm BARE S-Flex Boots are designed for divers who need reliable warmth, comfort, and protection in cold to moderate water conditions. Constructed from high-quality neoprene, they provide excellent insulation while maintaining flexibility for natural movement. The easy-entry system with a heavy-duty zipper and wide gusset allows quick on and off, even after long dives. Reinforced toe and heel caps enhance durability, while the non-slip vulcanized sole ensures stable traction on wet and uneven surfaces. Built for performance and convenience, these boots are ideal for both shore and boat diving.

- 5mm neoprene construction for warmth and insulation
- Easy-entry design with heavy-duty zipper and wide gusset
- Low zipper placement for improved comfort and access
- Reinforced toe and heel caps for durability and protection
- Non-slip vulcanized sole for secure traction
- Heel fin strap retainer for stable fin positioning
- Flexible design for natural movement and comfort
- Includes reusable mesh bag for storage and drying

BARE SUPERLOW BOOT 3MM

BARE Feet 3mm Low Cut Booties – Lightweight Comfort for Warm Water

The BARE Feet 3mm Low Cut Booties are designed for warm-water adventures, offering the perfect balance of comfort, protection, and versatility. Ideal for diving, snorkeling, and watersports, these lightweight booties feature an anatomical fit that contours naturally to your foot for all-day comfort. The durable vulcanized rubber sole provides reliable grip and protection on rocks, beaches, and boat decks, while the reinforced heel cap adds structure and longevity. Flexible, travel-friendly, and easy to wear, they are a must-have for any tropical water activity.

- 3mm neoprene construction for lightweight warmth and flexibility
- Anatomical fit for natural comfort and secure feel
- Vulcanized rubber sole for traction and foot protection
- Reinforced heel cap for durability and structure
- Low-cut design for easy wear and freedom of movement
- Ideal for diving, snorkeling, and watersports
- Lightweight and travel-friendly
- Includes reusable mesh bag for storage and quick drying

PSI SEABOOT 5MM DIVING BOOTS

Our new diving boots PSI Seaboot 5mm maintains its sturdy but flexible outsole and rubberized protective armor. It still feels very light on the foot. A revised ankle diameter and new contoured top improve fit and make sliding the YKK zipper up and down even easier.

- Material: 5mm neoprene with nylon jersey fabric
- Customized logo printing
- 83 YKK plastic zipper opening
- Natural rubber extra protection on the instep
- Thick rubber sole, extend to toe for more protection
- On back with stopper

PSI SEAWALK 3MM DIVING HALF BOOTS

The ideal warm water dive boot, SeaWalk Boots are made from as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Fewer seams don't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

- Material: 3mm neoprene with nylon jersey fabric
- Customized logo printing
- Natural rubber extra protection on the instep
- Thick rubber sole, extend to toe for more protection
- On back with stopper

BARE EXOWEAR HOOD

BARE Exowear Hood – Advanced Thermal Protection with OMNIRED™

The BARE Exowear Hood delivers maximum thermal protection in a lightweight, neutrally buoyant design, perfect for diving and multi-sport water activities. Featuring OMNIRED™ Infrared Technology, it converts body heat into infrared energy and reflects it back to enhance warmth without added bulk. The advanced 3-layer fabric is water-repellent, windproof, and breathable, ensuring comfort in harsh conditions. With quick-drying, moisture-wicking, and anti-microbial properties, the Exowear Hood keeps you warm, dry, and fresh—making it an essential accessory for cold-water adventures.

- OMNIRED™ Infrared Technology for enhanced thermal warmth
- 3-layer fabric: water-repellent, windproof, and breathable
- Quick-drying and moisture-wicking performance
- Anti-microbial treatment for odor control
- Lightweight and neutrally buoyant design
- Provides essential head warmth in cold conditions
- Flexible, comfortable fit for extended wear
- Ideal for diving and multi-sport water use

PSI SEAHOOD 2MM

Our PSI Seahood 2mm will minimize heat loss from the head area, so if you tend to get cold after some time at depth there's no better fix than to add a hood to your dive suit. Our new 2mm diving hood is made of quality Neoprene for maximum flexibility and durability. The PSI Seahood 2mm is the perfect addition for extended warm-water dives.

- 2 mm neoprene thickness
- Face area left unbound to allow for trimming
- Durable flatlock construction
- Provides moderate warmth and maximum comfort
- Packaged in polybag with display hook and insert card

PSI SEACAP 2MM

PSI Seacap 2mm diving cap hoods minimize heat loss from the head area, so if you tend to get cold after some time at depth there's no better fix than to add a hood to your dive suit. The Seacap 2mm is made of 100% Neoprene for maximum flexibility and durability. It is a lightweight accessory and the perfect addition for extended warm-water dives.

- **Easy Drying:** A built-in loop allows easy, drip-dry storage
- **Easy On/Off:** The hook-and-loop closure at the side of the neck makes the hood easy to put on and take off
- **Neoprene:** 2mm neoprene makes this the perfect cap for warm water diving
- **Strong Seams:** Flatlock stitching provides excellent seam strength and durability

SEASOCKS 3MM

Enhance your diving experience with the PSI 3mm Neoprene Socks, designed for superior comfort, warmth, and protection. Made from high-quality 3mm neoprene, these socks provide excellent insulation to keep your feet warm in cooler waters while ensuring a snug fit inside your fins.

KEY FEATURES:

- **3mm Neoprene Construction** – Offers thermal protection and flexibility for all-day comfort.
- **Anti-Slip Sole** – Provides added grip and durability, reducing slippage on wet surfaces.
- **Flatlock Stitched Seams** – Ensures durability and minimizes chafing for a comfortable fit.
- **Versatile Use** – Perfect for scuba diving, snorkeling, freediving, and other water activities.
- **Enhanced Fit** – Reduces friction and prevents blisters when worn with diving or freediving fins.

Whether you're exploring coral reefs or navigating rocky shore entries, the PSI 3mm Neoprene Socks are an essential addition to your dive gear.

SeaLife® MICRO 3.0 - 4K

The SeaLife Micro 3.0 series of permanently sealed cameras is the easiest way to immerse yourself into the world of underwater imaging. The Micro 3.0 camera cannot leak, and is ready to dive right out of the box, simply charge the battery and submerge. The Micro 3.0 requires no maintenance – just wash and clean after use. The camera offers impressive results with its large SONY® 16MP CMOS sensor and 4K Ultra HD video.

The Micro 3.0 has 64GB of internal storage. Images and videos can be transferred to Android or IOS devices via the SeaLife Micro 3.0 App or by USB cable. The SeaLife Micro 3.0 is available as a camera only model, or as a complete set, including either one Sea Dragon 3000F Auto or two Sea Dragon 2500F underwater LED lights.

- 16MP SONY® 1/2.3" Image Sensor
- 100° Wide Angle Lens
- 64GB internal memory
- 4K@30fps or 1080p@120 fps Video
- Easy to use "Piano Key" controls
- JPG and RAW image capture
- Built in underwater color correction
- Manual White Balance available
- Burst Shooting at full 16MP resolution

SL405	SportDiver Ultra Underwater Housing for iPhone®	12,450 THB

SeaLife® SPORTDIVER S UNDERWATER HOUSING

Capture the underwater world with your smartphone – down to 100 feet (30 meters)

The SeaLife SportDiver S is the ultimate tool for underwater smartphone photography, offering exceptional image control and durability in a sleek, travel-friendly design. Engineered for diving enthusiasts and casual snorkelers alike, the SportDiver S brings the power of your smartphone to new depths—literally.

Constructed with a blend of polycarbonate, stainless steel, aluminum, and optical-grade glass, this robust housing is **depth-rated** to 100 feet (30 meters) and provides almost neutral buoyancy depending on your phone model. Whether you're exploring coral reefs or documenting a shipwreck, the SportDiver S makes it easy to **capture high-quality photos and 4K videos** with intuitive controls and unmatched safety features.

Key Features:

Smartphone Compatibility: Fits all iPhones from iPhone X and newer (including Pro Max models), plus most Android devices. Please review our SportDiver compatibility and fit guide.

Advanced Camera App: Use the free SportDiver app to access features like zoom, white balance, RAW/JPEG, lens selection, and more.

Leak Avoidance System: Dual leak alarms and a vacuum seal system provide pre-dive assurance and real-time alerts.

Simple Operation: Large shutter lever and rear control buttons designed for easy use, even with gloves.

Bluetooth® Low Energy: No cables needed—connect your phone wirelessly for efficient control with ultra-low power usage.

Built for Travel: Weighing just 1.41 lbs (641g), it's ideal for travel, and each unit is **individually depth-tested**.

The SportDiver S includes everything you need to get started, from rubber grip tabs and a vacuum pump to anti-fog foam and batteries. Its **optical lens port** accommodates multi-lens phones including iPhones and Samsung Galaxy S24+ models.

SL408	SportDiver S Underwater Housing	8,990 THB

SeaLife® SEA DRAGON 2500F

The Sea Dragon 2500F uses flat panel COB LED technology to closely mimic natural sunlight, bringing out amazing colors in underwater photos and videos.

With a Color Rendering Index of 90, the Sea Dragon 2500F solves the issue of blue underwater photos and videos by giving divers the ability to add light down to 200 feet/60 meters with portable sunlight.

REF	DESIGNATION	RETAIL
SL671	Sea Dragon 2500F COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	14,980 THB
SL6712	Sea Dragon 2500F COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	14,090 THB

SeaLife® SEA DRAGON 3000F AUTO

The Sea Dragon 3000F Auto delivers 3000 lumens over 120° smooth, even beam angle without a hot spot. Two red LEDs emit an 88° wide "stealth mode" beam that won't scare away nighttime sea creatures and preserves your eye's natural night vision. Powered by a rechargeable 25Wh lithium ion battery, the light burns for a full hour at 100% power at constant brightness with its new COB LED 120° beam angle. Depth rated to 330ft / 100m.

The Sea Dragon 3000F Auto includes a Flex-Connect Grip and single tray. Easily expandable with Flex-Connect Grips, Arms, and Trays.

REF	DESIGNATION	RETAIL
SL678	Sea Dragon 3000F Auto COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	16,840 THB
SL6780	Sea Dragon 3000F Auto COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	15,060 THB

SeaLife® SEA DRAGON 3000SF PRO DUAL BEAM

The compact Sea Dragon 3000SF Pro Dual Beam Photo-Video light is the perfect all-around photo, video, and dive light. With a simple one-button push, you can switch from the wide 3000 lumen 120° beam to a narrow 1500 lumen 15° spot beam. For imaging, the spot beam offers many creative opportunities such as to create a narrowly focused snoot or stage spotlight effect. The spot beam also serves as a primary or secondary dive light for most diving applications. Two red LEDs make this the perfect light combination for both day and night dives.

The narrow beam feature has a long effective range making it useful to see in dark areas and discover hiding fish. The Sea Dragon Pro Dual Beam also offers two 180 lumen 88° red LEDs. Red light won't affect your own eyes' night vision or scare-off light-sensitive sea creatures, a simple push on the feature button shifts the light from red to the wide beam at 3000 lumens. You are ready in an instant to capture still or video images.

REF	DESIGNATION	RETAIL
SL679	Sea Dragon 3000SF Pro Dual Beam COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	18,240 THB
SL6791	Sea Dragon 3000SF Pro Dual Beam COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	17,550 THB

SeaLife® SEA DRAGON 3000F COLOR BOOST™ LED

High-performance 3000 Lumen Underwater Photo-Video Light with Color Boost

The Sea Dragon underwater photo-video light delivers 3000 lumens in a 120° wide beam without hotspots. A 90 CRI (color rendering index) COB LED array simulates natural sunlight, allowing the user to capture vibrant colors and sharp details in underwater photos and videos.

The new patent pending SeaLife Color Boost™ mode combines specific red and white light frequencies, producing a warm and vibrant underwater color effect. Red is the first color in the visible light spectrum filtered out by water. The light's Color Boost feature replenishes the lost red for a balanced, warm color effect.

REF	DESIGNATION	RETAIL
SL681	Sea Dragon 3000F Color Boost™ COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	16,570 THB

SeaLife**SEA DRAGON 5000+ COB LED**

The compact Sea Dragon 5000+ with Color Boost™ Photo-Video light is a powerful photo, video, and dive light that replenishes lost colors underwater by combining red and white light frequencies for a balanced, warm effect. With a simple one-button push, you can switch from a brilliant 5000 lumen beam to the Color Boost feature to the Color Boost feature, which adds warmth by using the light's proprietary red LED's to a warm color temperature of 3700 Kelvin. Brightness output can also be adjusted to 6000 lumen for a 2 minutes time (to conserve power) and 6000 lumen with Color Boost (4000K Color temp.), 3000 lumen, 1500 lumen, and Red-only "Stealth" mode. The two red LEDs alone are perfect for night dives.

REF	DESIGNATION	RETAIL
SL680	Sea Dragon 5000+ COB LED Photo-Video Light (Includes Light Head, Flex-Connect YS & 1" Ball Joint Adapter, Battery & Charger)	20,000 THB

SeaLife**SEA DRAGON DUO 3000F SET**

The Sea Dragon Duo 3000 Flash underwater lighting set includes the Sea Dragon 3000F Auto Photo/Video Light, Sea Dragon Flash, and Flex-Connect Dual Tray and Grips—providing versatility for shooting colorful photos or videos. The best still images are captured with a flash, and the Sea Dragon strobe auto-learns your camera's pre-flash instantly. The Duo 3000 Flash set also includes the Sea Dragon 3000F Auto, which offers Auto Flash Detect Mode—a feature that turns off the 3000-lumen light for one second while your flash fires and the camera captures the photo. Auto Flash Detect helps eliminate undesirable shadows, color shifts, or backscatter. An additional feature of the 3000F Auto light is the Auto Bright Mode, which automatically dims the light based on the proximity of the subject.

- Two Powerful 3000 lumen LED lights
- Three Brightness modes
- 120° wide beam angle
- Depth rated to 330ft / 100m
- Corrosion-proof light heads
- Removable 25Wh 3400 mAh Li-Ion battery

TECLINE REGULATOR BAG - OVAL PROTECTION

The Tecline Oval Regulator Bag is designed to keep your regulator set safe, organized, and easy to transport. Its semi-rigid construction helps protect delicate components from impact, while the compact oval shape maximizes space efficiency in your dive gear setup. A durable zipper ensures secure closure, and the comfortable carry handle makes transport simple. Ideal for travel or daily use, this bag keeps your equipment protected and ready for every dive.

- Semi-rigid design for enhanced regulator protection
- Compact oval shape for efficient storage
- Durable zipper for secure closure
- Comfortable carry handle with detachable strap
- Lightweight and ideal for travel or gear organization

REF	DESIGNATION	RETAIL
BATL85012-1	TECLINE Regulator Bag, 10L (33*10cm)	3,150 THB

PSI REGULATOR BAG

This PSI Regulator Bag is the perfect bag for protecting your regulators and organizing your dive kit. The bag size is large enough to fit 2 regulators sets or masks, smb, dive light, dive computer, or other accessories.

- Round shape to minimize kinks in hoses
- 5" Wrap-around durable webbing handle
- #8 corrosion-resistant zipper with extended pullers
- **Dimensions:** 38 x 36 x 11 cm
- **Capacity:** 10 liters
- **Weight:** 0.25 kg
- 1 Year Limited Warranty

PSI ZEN COMBO

PSI Zen Mask & Lux Dry Snorkel Set – Premium Comfort & Clear Performance

The PSI Zen Mask and Lux Dry Snorkel set delivers premium comfort, clarity, and reliability for divers and snorkelers alike. The Zen Mask features a single-lens Super Clear HD lens with a wide field of view and low-volume design for easy equalization and enhanced visibility. Its high-grade silicone skirt ensures a soft, secure fit. Paired with the Lux Dry Snorkel, featuring Pivot Dry Technology to prevent water entry, this combo offers smooth breathing and hassle-free performance. Ideal for travel, training, and recreational diving.

- Single-lens Super Clear HD mask for bright, distortion-free vision
- Low-volume design for easy equalization and quick clearing
- High-grade silicone skirt for a secure, comfortable fit
- Lux Dry snorkel with Pivot Dry Technology to prevent water entry
- Silicone flex section with purge valve for easy clearing
- Hypoallergenic silicone mouthpiece for long-lasting comfort

PSI ADVENTURE FULL FACE MASKS

Our new 180-degree panoramic full-face mask allows you to open your eyes freely while underwater. It enhances your snorkeling experience and provides a broad view of fish and other sea life.

- 180-degree panoramic view, Waterproof Anti Fog
- The Full-Face mask design with patent separates inhaling and exhaling channels (high volume air-flow structure allows 20%-50% more than normal masks) for anti-fogging
- Skin-friendly material seals the mask perfectly to prevent water from getting in; an anti-fog shatterproof PC mask keeps your view crystal-clear
- GoPro mount for your sports cam, ensuring you capture the best shots of your snorkeling adventure.

Material: Silicone gel + PC Lens
 Adult Sizes: S/M & L/XL

REF	DESIGNATION	RETAIL
SCP550020	PSI Adventurer Full face mask S/M - Black/Orange	1,450 THB

PSI LOOSE FIT OUTLAW

NEW
2026

PSI's collection of Loose FIT rashguards are designed to fit comfortably just like your favorite T-shirt and can be worn in & out of the water. They dry quickly, protect your skin from the sun's UV rays and act as a guard against stings and scratches. PSI's recommends wearing a rashguard under your wetsuit for added comfort while diving or after a dive to protect from the wind.

- The rashguards are SPF 50
- The PSI rashguard material is made from 85% nylon / 15% spandex
